You have a ton of options on how to play, such as the "Authentic Team" that lets you use real clubs and national teams. There is also the "Dream Team" where you can choose your favourite footballers, whether they are active players or football legends, to create your original team. This is the game where real-life football and your wildest football dreams unite! PS4 PS3 Xbox One Xbox 360 PC Pro Evolution Soccer Pro Evolution Soccer 2017 sees the return of the multi-award winning franchise complete with an abundance of new features and quality improvements. PES 2017 aims to retain its title of Best Sports Game for a third year, as voted across the world at games shows and by major media outlets in 2014 and 2015. This years tagline (creation concept) Control Reality' encapsulates the focus of this years product, taking the award winning gameplay to a new level by achieving interactive reality in both control and its new standard of authentic visuals. The immersion in the game presentation and interactive, tactical elements enhance the experience for the player, as the product aims to maximize the fun in playing against any player in every way. The industry leading Fox Engine again powers the series to reach new heights across the large amount of improvements, and with PES 2017 users will be able to experience real football for the first time in a video game. Konami Digital Entertainment You have a ton of options on how to play, such as the "Authentic Team" that lets you use real clubs and national teams. There is also the "Dream Team" where you can choose your favourite footballers, whether they are active players or football legends, to create your original team. This is the game where real-life football and your wildest football dreams unite! Once you've started playing the game, you can learn the basic controls and how to build your Dream Team through a step-by-step tutorial that includes practice matches. So that many users can enjoy the fun and exhilaration of playing matches in eFootball, we have also added the Smart Assist setting.Break through the opposing defence with amazing dribbles or passes and score goals with powerful shotsall without the need for complex commands. When Attacking Dribbling To perform a feint which would normally require a complex command, simply tilt the right stick in the direction you want to perform an evasive maneuver.*Applies only to console/PC versions While dribbling, this setting helps the player move in the right direction to avoid opponents who draw close. When the ball is about to go out of play near the touchline, this setting helps correct the dribbling speed and direction. Passing The target of passes will change to players who are open depending on the situation, such as if an opponent is blocking a passing lane or a teammate is making a run behind the defense. Depending on the situation, the pass type will automatically switch to a strongly hit or lofted ball, which would normally require quick decision-making and complex commands. Shooting The power and trajectory of shots are automatically determined without the need for precise shooting commands that require quick decision-making. When Defending The ball will automatically be cleared during dangerous situations in front of your own goal. This setting also helps defenders make a clearance in an appropriate direction. When using the Match-up command, the defender will automatically move in front of the opponent dribbling the ball. To adjust the defender's positioning, enter a direction. *During a Match-up, the defender crouches down and confronts the opponent in possession of the ball by taking precise steps while moving within an appropriate range, increasing the chances of successfully blocking a pass or shot. How to Change this Setting When playing for the first time, Smart Assist will automatically be set to "On". You can change the setting by following the steps below. Mobile version: [Extras] > [Game Settings] > [Play Settings] > [Smart Assist] Console/PC version: [Extras] > [Game Settings] > [Controller], select a controller to use, then choose [Detailed Settings] > [Smart Assist] An Authentic Team is a ready-to-use team that is available for you to play.Choose your favourite club or national team and enjoy matches against the AI in "Exhibition" mode, or play with your friends online via "Friend Match" mode. In Dream Team, you can build your very own team by signing your favourite players and managers. Create your original team and take on the world in Dream Team-exclusive matchups. Dream Team Playing Concepts Your Dream Team journey will start with a squad full of original players. However as their abilities are not very high, you should be looking into making signings. To sign players, you will need to go to [Contract]. We recommend you to check out the "Standard Player List" where you can utilise the welcome rewards to make signings. Special Player List You can sign players that have put in top performances in real-life matches, players from featured leagues and football legends here. *May not be available in certain Countries/Regions. Standard Player List You can sign any player of your choice here. Use the filters to find your favourite players. Manager List You can sign managers of different Coaching Affinity that excel in various tactical setups. Standard Player Tickets Tickets that can be earned through various means, including Event Rewards. Use these to sign players at random. Packs Packs include a variety of novelty items such as players, managers and strips. You will need to register your signed players via [Game Plan] to have them featured in matches. When you are done building your team with your newly signed players, head on over to [Match]. Events Experience the "hot topics" of the football season by taking part in a wide variety of Events. There are VS AI matches and User Matches waiting for you to take on. New types of Events will also be added in due course. eFootball League Play PvP and VS AI matches in a league with a division-based structure. Climb the division ladder and earn even greater rewards. My League This is a mode where you battle to become the champion of your chosen league by playing matches against the AI. Quick Match Enjoy casual online PvP matches against users around the world. These matches will not be counted towards your match records. Friend Match This online mode allows you to play in your preferred Match Settings, from 1-vs-1 to 3-vs-3 Co-op (cooperative play). [Tips] Earn rewards and strengthen your team GP and eFootball Coins, which are needed to sign players, can be obtained in various ways. "Login Bonus" is a reward for logging into the game and can be claimed once a day, so be sure to log in everyday. With "Match Pass", you can earn rewards by simply completing matches. Friend Match is eligible too, so you can get your hands on rewards whilst playing with friends. "Objectives" reward you for completing the indicated challenges. There are many easy challenges on offer too! In "Daily Game", you will aim to earn rewards by proceeding through specific spaces on the map. By scoring penalty kicks, you will be able to move through more spaces, thus getting you rewards at a faster rate. Apart from players of certain Player Types, you can further develop your signed players. Head onto [My Team] > [Players] and select the player that you wish to develop. Level Training "Level Training Programs" can be used to grant your players Experience Points. Player Progression "Progression Points" will become available once a player levels up, and can be used to further develop the player. Skill Training "Skill Training Programs" can be used to add a maximum of 5 Additional Skills to a player. Position Training Applicable players will have a list of eligible Position Proficiencies for Position Training. Through the use of "Position Training Programs", you will be able increase a player's Position Proficiency for a maximum of 2 positions at random. Player Fusion Fusing a player allows the Experience Points and the Additional Player Skills to be passed on to another player. Follow these 2 steps to develop your player. 1) Level up your players by featuring them in matches, or by using "Level Training Programs" that you have received as event rewards etc. 2) Use the Progression Points that you earned from levelling up the player, and develop him via "Player Progression". What is Player Progression? This is a function that allows you to develop your players using Progression Points. Your players acquire Progression Points when they level up. You have two options on how to allocate the player's Progression Points: "Auto Development" and "Manual Development". If you choose "Auto Development", whenever the player levels up, his Points will be allocated automatically in a way that will maximise his Overall Rating. In case you want to customise the player's stats to your personal liking, you can allocate the Points manually by choosing "Manual Development". Note that you can reset a player's Progression Points at any time. Lastly, in case you are in doubt on how to manually allocate your player's Points, you can use the "Recommended" function to allocate them automatically. Team Playstyle There are 5 different Team Playstyles that can be configured in [Game Plan] > [Tactics], including "Possession Game" and "Quick Counter". To make the tactics work more effectively for your team, it is best to employ a manager with a higher proficiency for your chosen Team Playstyle. [Tips] Boosters Some players will possess a special feature called "Booster". "Boosters" serve to enhance certain Player Stats, allowing you to perform Player Progression on a player and take them beyond the ceiling of 99. There are some players that have a "Booster Slot" where they can add an extra Booster to their arsenal. The Dream Team experience is divided into "Phases". During each Phase you will be able to enjoy the latest football trends via in-game Events, such as PvP Challenge Events and VS AI Tour Events. By signing players that are compatible with an Event's theme and adding them to your squad, you will have an advantage in the Event. Create an unique team for each Event and feel the excitement that only football can offer! In-game Assets and Contracts Please see the following for information regarding in-game assets earned via Dream Team, and the different ways to sign players. Virtual Currency These are Coins that can be used to sign players and purchase in-game items etc. They can be acquired in-game or via [Shop]. GP This is an in-game currency that can be used to sign players and managers etc. It can be acquired by meeting certain conditions in-game. These are Points that can be used to sign players and exchange in-game items. Apart from acquiring them in-game, you can also get them via out-of-game campaigns. eFootball Point Official Site Contracts Chance Deal An item that allows you to sign a random player from a list of players tailored for this deal. Nominating Contract An item that allows you to sign a player of your choosing from a list of players tailored for this contract. Selection Contract An item that allows you to sign a player of your choice from an exclusive Player List. Player Signings and Card Types *Card images and player stats are not finalised, and may undergo changes in the future.
