this game. A few months ago I was trying to synchronize my EA account for my PS account to get my first awards. When they did that they erased all my progress then virtually all the skins they left me with nothing. When I asked why © This happened that they told me that I accepted it, that I don't remember doing it and They never proved to me that I did even though they said they had proof: test, which was 100's of grinding hours taken from me not to mention all the money I had spent on the game on skins and Apex Packs (at least 300-dollars since the beginning of the game.) I want to continue to support this game because © It is one of my favorite games of all time never but things like this do not want me. Actually I wanted to buy the physical edition of the game to get the skins but with everything that's happening with my account I'm almost sure I wouldn't have received the articles and I'm almost sure that support would have simply told me that there was nothing they could do. I also had to eat 30-dollar Apex Coins that I bought through Best Buy that also did not come through. Support said I had to talk to Best Buy about it even though it showed that the coins went through but I never really got them. Fixed account and to be given the coins I bought. I will try again today to talk about support for the coins I bought on 11/2 and did not receive. Once again I will keep you updated on what they say. Thanks page 2 EA Help on Twitter Message 13 of 23 (12886 Views) Home / Games/ SimCity Buildit SimCity Buildit MOD APK is a free city simulation game for Android. This is a famous game in the series EAE SimCity. You can download the original APK file and MOD versions of this game through the links that we have placed under the article.Table of Contents Introduce on SimCity BuildItCity BuildItCity BuildItCity BuildItCity BuildItIt is a simulation game of the publisher Electronic Arts, a family name if you often play on mobile phones. They are famous for the series Plants vs. Zombies and some sports games such as Real Racing 3. This is the first time EA has tried a simulation game. And the effect of this game is incredible. Until now The game has reached more than 50 million installments on Google Play with many reviews 5-star.gameplaylaunched 5-star.gameplaylaunched In the late eighties, the SimCity series has been the best friend of many generations of gamers and has made incredible steps since then. This latest version seems more bright and more lucid from the beginning, and when you give a closer look, you will see Å º unexpected details. The Basics of SimCity remain the same. However, the top view and square shapes of the old days have changed, becoming a three-dimensional world that you can costruire.Presto, concern about taking control of your mind will meet high-class requirements rather than basic needs. Sooner or later you'll have a donut shop. Then you will think to shopping malls and casinos. It focuses on shaping the city at will, as the construction of seaside resorts or the parigino.Grow citySe your design style you are too busy to maintain operation of the city, just stop and watch the simulation process is enough to make happy. When you use two fingers to stay in a sports stadium, you will see the small players to play volleyball, take a direct score in baseball, as well as mark on the football field. You will enjoy watching the scenery or to listen to the noises of the bustling city with happy residents who live there. What a perfect result for your efforts, right? Meanwhile, the industrial parks are not just places for Sims to work. They and your stores, these industrial areas produce the materials for you to upgrade your existing plots. At first, your property may seem a po'modest to Å º Å more like SimTown or SimVillage. However, when you see changes in a city in the developing world, you will know what to do next. Yet some people just want to see the world on fire and I must confess that it's also exciting. When building a fairly large city, you can ask the help of Dr. Vu The city with many types of disasters, from meteorites to invasion of aliens. Destroying is easier than building. Also, you will receive rewards for your reconstruction reconstruction efforts Collect and exchanging resources to build a city, resources are extremely important. You can't build a building without resources. However, you can find and buy resources from other players. Sometimes, some players need your resources, and you also need their resources. An exchange has been carried out which has helped both parties. Trading and exchange of resources also help you earn a decent income. VALUTASIMCITY BUILDHA Different currencies: SIMOLEONS: You can get Simoleons updating buildings, resource exchange, selling objects. Alternatively, you can use SimCash to buy SIMOLEONS.SIMCASH: high-class currency. Simcash helps you buy and update your jobs immediately instead of waiting. You can get simcash just buying cash. You also have the opportunity to get some simcash after completing some goals, but it is negligible. Golden Key: you can get the gold key by completing the shipment or overcoming the challenges in case of disaster:platinum key: You can request the Platinum key only through the mayor's competition. You can't be purchased with Simcash.Grafcanon CÀ º™ doubt about the graphic quality of the game and Å º Å. SimCity Buildsimulates a virtual city with a detailed and clear 3D graphics. With the view from the high, you can view all the activities of your city. You can zoom in and out to see your happy residents are experiencing. Your city is beautifully designed with sharp images and bright colors. Moreover, the game also has day / night effects and time changes season in season. All the above gives you the best experience. experience.
