Learn how to easily operate and connect your smart device to the Jensen bluetooth stereo located in your Fleetwood RVEvery good road trip should have a soundtrack. So before you hit the road on your next big adventure, make sure you know how to take full advantage of your Fleetwood RVs audio system, especially the Jensen RV Radio Bluetooth. Watch the video below to learn how to connect your smartphone to the Jensen radio, and write out the instructions to give yourself a road trip cheat sheet! Still having connectivity issues? Find a dealership near you and get some in-person help from the experts! In this article, we're gonna show you how to pair and connect Jensens Bluetooth car radio. Also, you'll learn how to delete Bluetooth devices from your Jensen radio. The instructions will be provided for both single and double din units. JENSEN JHD1635BT Heavy Duty Single DIN Bluetooth pairing (iPhone OS or Android) These are Bluetooth pairing instructions for Jensen heavy duty radio (JHD1635BT), but we are sure you can use the same instructions for other single din units from the JHD series. Bluetooth-enabled phones support the A2DP music protocol so that you can stream music and make calls wirelessly from your iPhone or Android device. Source. Step 1: Press and hold the PTY/CAT/MENU button (2) to enter the menu adjustment mode. Step 2: The Bluetooth Setup Menu can be accessed by pressing the SEEK/TUNE buttons repeatedly (18, 19). Step 3: To select an option, press ENTER. Step 4: Select the BT ON You can select BT ON or BT OFF using the ENTER key (16). A Bluetooth icon will appear on the LCD screen when it is turned on (the default is BT ON). Step 5: Select the BT Pair: In order to enable the unit to search for and discover Bluetooth devices, press ENTER to enable BT Pair. Step 5: Turn on the device/phone and make sure it is ready to receive a signal from the car radio. Step 6: A mobile phone will display the name of the car stereo (JHD1635BT) once its search has been completed. Step 7: Upon selecting your unit, you will see the Bluetooth icon on the radio LCD. Step 8: Enter the Jensen radio Bluetooth pairing code or PIN (0000), if requested. Delete, Lock/Unlock, or Disconnect Paired Device Step 1: With the first three steps from the instructions above select BT Device List Step 2: Select a device from the list by pressing the SEEK/TUNE buttons (18, 19). Step 3: The SEEK+ or SEEK- button lets you choose Lock/Unlock, Disconnect, or Delete for this device. Step 4: Press ENTER to confirm your action. Bluetooth not working! If you can't connect a device or having trouble with the Bluetooth connection, try to DELETE or DISCONNECT the device and then repair it. There is a maximum of five Bluetooth devices that can be stored. JENSEN CAR710X Double DIN Bluetooth pairing (iPhone OS or Android) In the double din section, we'll go explain how to pair and connect Bluetooth devices on the Jensen CAR710X touchscreen unit. Source. Step 1: Enable Bluetooth on your device/phone Step 2: Touch the BT Phone icon in the main menu on Jensen radio. Step 3: Find the name of the device on the radio and the name of the radio (CAR710X) on the phone and touch to pair.\* For other BT options press the BT Settings icon (7), where you can add, delete or disconnect devices, among other options.\*\* The Bluetooth indicator (3) will flash whenever a Bluetooth device is being paired. An indicator (3) will illuminate steadily if Bluetooth is enabled and a phone is connected to the unit. Our Jensen radio paired with our iPhones just fine for 4 weeks but recently we cannot get a connection. Has anyone else had this problem? My method is to select the Bluetooth mode, then hold enter down for 3 seconds, then Pairing appears on the Jensen screen but no device can connect. I have also tried the Reset on the Menu, tried turning Bluetooth and my phone and the radio off and on again, but my phone does not even see the JWN device anymore. 2018 T@B 400 Sw@llowt@il -2015 Highlander - Dunedin, Florida "Not all that wander are lost..."
