

This is the official Federal Bureau of Investigation (FBI) LinkedIn account and is used to build awareness of workplace culture, engagement opportunities, and the FBI mission. The FBI does not collect comments or messages through this mission. The FBI is the premier law enforcement agency in the world. We are an intelligence-driven, outcome-focused national security organization. Steeped in a history of innovation and determination, we are a collective of individuals united under one unwavering mission, to protect the American people and uphold the U.S. Constitution. The FBI mission guides our efforts and focuses our resources on critical threats, while our core valuesrespect, integrity, accountability, leadership, compassion, fairness, and rigorous obedience to the Constitutionserve as the foundation of everything we do. The FBI has over 500+ purpose-driven careerssuch as special agent, forensic accountant, or IT specialistto safeguard the nation against cyberattacks, financial fraud, organized crime, and more. We leverage our varied backgrounds, from art history to engineering, to investigate illegal activity. The FBI collaborates worldwide with law enforcement partners and intelligence agencies, providing resources including biometric identification, laboratory examinations, comprehensive training, and more. While you are investing in us, the FBI is investing in you. Bureau benefits include unparalleled leadership development, advancement and growth opportunities, and an impactful career that enables our workforce to evolve while ensuring we stay ahead of the threat. Set yourself apart. Note: Submit tips at tips.fbi.gov. Public info may be used for authorized purposes only: justice.gov/doj/privacy-policy.

Special agents begin with the foundation of a lived experience and gain guidance and support that shapes them into great leaders. From field investigations to national security briefings to directing a field office, professional development at the FBI happens at every level. Through training and mentorship, special agents sharpen their skills, deepen their expertise, and take on greater responsibilitynot for the glory, but for the impact. Thats how extraordinary careers are built: through constant growth and a shared mission. At the Bureau, professional development means ordinary people doing extraordinary things. Apply today. #FBI #FBIJobs #SpecialAgent #LawEnforcement #CareerDriven #ProfessionalDevelopment #Mentorship When Albert Nussbaum and Bobby Wilcoxson set off a string of violent bank robberies in the early 1960s, they thought they could outsmart the law. But their plans unraveled when one of Nussbuss homemade bombs failed to detonate. The FBIs fingerprinting programalready one of the most advanced in the worldwas able to lift a clear print from the device, identifying Nussbaum and setting a manhunt into motion. For over a century, the FBI has led the way in fingerprint identification, using cutting-edge forensic science to connect suspects to crimes and secure justice for communities worldwide. That single fingerprint helped break open a multi-state case and dismantle a dangerous criminal partnership. Today, those same techniques are used every day by special agents and forensic experts across the country. Be a part of the team that turns evidence into answers. Forge your path. Apply today. #FBI #FBIJobs #Hiring #SpecialAgent #Forensic #Science #LawEnforcement Every minute matters when a child goes missing. On National Missing Childrens Day, we highlight the FBIs Child Abduction Rapid Deployment (CARD) Team, which includes special agents, analysts, and victim specialists who deploy at a moments notice to support local and state law enforcement during urgent searches. Their mission: Bring children home safely, using every tool, resource, and ounce of expertise available. In one tragic case involving a young boy with autism, the FBI developed a specialized questionnaire to help investigators ask the right questions, fastlike whether the child is drawn to water, travels at night, or uses a tracking device. That checklist is now a national resource, distributed by CARD Teams to law enforcement across the country. Tools like the FBI Child ID app let parents securely store photos and vital information, ensuring critical details are ready when they matter most. See yourself in the FBI. Apply today. #FBI #FBIJobs #SpecialAgent #Hiring #Missing #LawEnforcement #MissionDriven Huntsville is consistently ranked one of the best places to live in the country because of its vibrant downtown, top-rated schools, and growing tech scene. Its a place where a meaningful career and high-quality living come together. At Redstone Arsenal, FBI personnel support some of the Bureaus most advanced and mission-critical operations. From cyber and forensics to intelligence and engineering, working in Huntsville means access to some of the art facilities, a collaborative environment, and a strong sense of community. Discover how your future can grow here while creating a safer, more secure future. Learn more today. #FBI #FBIJobs #Huntsville #Alabama #STEM #Technology #Cyber The FBIs Detroit Field Office has been a cornerstone of justice in Michigan for more than a century. As one of the Bureaus earliest field offices, Detroit special agents have led investigations into notorious organized crime groups like the Purple Gang and played a crucial role in protecting key industries like automotive manufacturing, which were essential to national security during wartime. Today, Detroit continues to stand out as a hub for tackling modern threats, from cybercrime to terrorism, while building on its historic achievements. Joining the FBI Detroit Field Office means becoming part of a team that not only protects Michigan but also shapes the future of law enforcement in one of the nations most dynamic regions. Be a part of creating a safer, more secure future. Learn more today. #FBIJobs #FBI #SpecialAgents #Detroit #Michigan #History #LawEnforcement Beneath the surface, critical evidence can be hiding in plain sight. The FBIs Underwater Search and Evidence Response Team (USERT) brings together elite special agents trained to operate in the most challenging aquatic environments. From murky riverbeds to deepwater ports, these agents use sonar, dive gear, and underwater robotics to recover evidence and protect our maritime borders. On National Maritime Day, we recognize the critical role maritime professionals play in safeguarding our nation's waterswaysand the skills it takes to operate in this environment. USERT agents complete specialized training in underwater forensics, navigation, and technical recovery operations. Its a role that requires precision, endurance, and a sharp tactical mindset. Go where few can as a special agent with USERT. Forge your path. Apply today. #FBI #FBIJobs #SpecialAgent #Hiring #Maritime #Scuba #Diving In the field, no one works alone. Every FBI mission is a collective effort, backed by analysts, technicians, specialists, and agents who bring their unique strengths to the mission. Special agents lead to prepare, prevent, and protect. They draw on lived experience, rigorous training, and the support of their teams to uncover the truth and drive critical outcomes. Whether theyre responding to a crisis or building a case across jurisdictions, these agents prove that protecting the country isnt a solo act, its a shared commitment. That is the power of collaboration, rising to the challenge and working together to achieve what no one could do alone. Apply today. #FBI #FBIJobs #SpecialAgent #Training #Collaboration #LawEnforcement #MissionDriven Online scams promising high cryptocurrency returns have cost victims billions. The FBI is working to stop the damage before it happens. Through Operation Level Up, special agents have intervened in thousands of ongoing scams, notifying potential victims in real time and saving them more than \$285 million in just one year. Their proactive efforts have helped protect people from devastating financial loss, including life savings, retirement accounts, and even their homes. With just a few clicks, these schemes could cause irreparable damage and wipe out everything. Special agents combine investigative skills with quick thinking and a deep commitment to public service so that they can prevent harm and stand up for those who may not know theyre in danger. Be a part of creating a safer, more secure future. Youre not alone.However, because its an important showcase of the investigation, you cant cut corners on this critical investigation step. Your investigation report reflects on you and your investigation, so make sure its as clear, comprehensive, accurate, and polished.How do you write an investigation report? What are the parts of an investigation report? What's an investigation report example? In this guide, youll learn how to make your workplace incident reports effective and efficient. How mature are your workplace investigations?An investigations maturity model can reveal your investigations program's strong points and areas for improvement. Learn how to evaluate your program in our upcoming freeside chat with investigations expert Meric Bloch.Watch Now An investigation report canSpark some sort of action based on the findings it presentsRecord of the steps of the investigationProvide information for legal actionsProvide valuable data to inform control and preventive measures In short, your report documents what happened during the investigation and suggests what to do next.In addition, the process of writing an investigation report can help you approach the investigation in a new way. You might think of more questions to ask the parties involved or understand an aspect of the incident that was unclear. Before you begin, its important to understand the three critical tasks of a workplace investigative report. It must be organized in such a way that anybody internally or externally can understand it without having to reference other materials. That means it should have little to no jargon or specialized language and be a stand-alone summary of your investigation from start to finish.It must document the investigative findings objectively and accurately and provide decision makers with enough information to determine whether they should take further action.With just one read-through, stakeholders should be able to understand what happened and how to handle it.It must include whether the allegations were substantiated, unsubstantiated, or whether theres something missing that is needed to reach a conclusion. Use the evidence youve gathered to back up your analysis. You might be wondering, What are the contents of an investigation report? Now that you know what your report should accomplish, well move on to the sections it should include. Get the TemplateInvestigation Report Format: What to Include in Your Workplace Incident Report1. Executive SummaryThe executive summary should be a concise overview of the investigation from beginning to end. It should not contain any information that is not already in the investigation report. This may be the most important component of the investigation report because many readers wont need to go beyond this section. High-level stakeholders get an overall picture of the allegations, investigation, and outcome without having to pore over the details.To make this section easy to read, write in an active voice. For example: I interviewed Carrie Smith, notCarrie Smith was interviewed.Example:On February 23rd, 2023, the Human Resources Manager received a written complaint of sexual harassment submitted by Carrie Smith, the stockroom manager. Smith claimed that on February 22nd, 2023, her supervisor, Mark Robinson, pushed her against the wall in the boardroom and groped her breasts. Smith also alleged that Robinson on another occasion told her she was too pretty to be working in the stockroom and that he could arrange for a promotion for her.On February 23th, the Human Resource Manager assigned the case to me.On February 23th, I interviewed Carrie Smith and two witnesses to the alleged February 22ndincident. John Jones and Pamela Miller. Jones and Miller did not corroborate the groping allegation but said they saw Smith running out of the boardroom in tears. Miller also reported hearing Robinson tell another employee, Sara Brown, that she had a great rack.On February 26th, I interviewed Mark Robinson. He denied the groping incident and said he was just joking around with her in the boardroom but did not actually touch her and that Smith was too sensitive. He admitted to telling Smith she was too pretty to work in the stockroom, but contends that it was meant as a compliment. Based on the interviews with the complainant and the alleged offender, I find that the complainants allegation of sexual harassment is substantiated. It is my recommendation that the company provide the respondent with a written account of the findings of the investigation and a reminder of the companys expectations for employee behavior. I also recommend that the respondent receive sexual harassment training and be advised that repeated harassing behavior may result in further discipline up to and including termination. This section outlines the preliminary case information in a concise format, with only the most important details. It can go either before or after the executive summary.Record:Your name and investigator identification number, if you have oneCase numberDate the case was assigned to youThe date the report was reviewedHow the report was received (e.g. hotline, email to HR manager, verbal report to supervisor)Name of the reporter/complainantIf the reporter is an employee, record their:Email addressWork telephone numberEmployment level/positionJob codeHire dateLocationEmployee identification numberDepartmentIdentification numberIf the reporter is not an employee, record their:Email addressPersonal telephone numberIn either case, note the date that the report was submitted, as well as the date(s) of the alleged incident(s). The purpose of this section is to answer the who, what, where, and when about the incident.What type of case is it? For example, is the case alleging harassment, discrimination, fraud, or other workplace misconduct?Specify the case type further.For example, is itsexualharassment,genderdiscrimination,accounts payablefraud, etc.Who is the alleged victim?For example, is the alleged victim an employee, a customer, or the whole company?If the alleged victim is an employee, identify the persons supervisor.Were any other people involved besides the subject and the alleged victim?Where did the incident(s) take place?When did the incident(s) occur?Capture details of the allegation.Example: Stacey Smith alleges that John Jones, an accounts payables clerk, has been funneling payments to a dummy supplier that he has set up in the companys procurement system. Stacey says that she noticed a discrepancy when one of the suppliers she deals with questioned a payment and she had to ask an accounts payable clerk, Tom Tierney, to pull the file for her. When Tom accidentally brought Stacey the wrong file, she saw that monthly payments were being made to a supplier she had never heard of, and that the address of the supplier was John Jones address. Stacey knows Johns address because her sister is Johns next-door neighbor.Describe the allegation or complaint in simple, clear language. Avoid using jargon, acronyms, or technical terms that the average reader outside the company may not understand. In this section, note details about the alleged bad actor. Some of this information might be included in the initial report/complaint, but others you might have to dig for, especially if the subject isnt an employee of the organization.For every subject, include their:NameEmail (work contact if theyre an employee, personal if not)Telephone number (see above)If the subject of the allegation is an employee, also include their:Employment status (e.g. full-time, part-time, intern, contractor, etc.)Job codeHire dateBusiness locationEmployee identification numberDepartment identification numberBegin outlining the investigation details by defining the scope. Its important to keep the scope of the investigation focused narrowly on the allegation and avoid drawing separate, but related investigations into the report.Example:The investigation reported via the hotline is true or false.Next, record a description of each action taken during the investigation. This becomes a diary of your investigation, showing everything that was done during the investigation, who did it, and when.For each action, outline:Type of action (e.g. initial review, meeting, contacting parties, conducting an interview, following up)Person responsible for the actionDate when the action was completedBrief description of the action (i.e. who you met with, where, and for how long)Be thorough and detailed, because this section of your report can be an invaluable resource if you are ever challenged on any details of your investigation. Write a summary of each interview.These should be brief outlines listed separately for each interview.Include the following information:Who conducted the interviewWho was interviewedWhere the interview took placeDate of the interviewInclude a list of people who refused to be interviewed or could not be interviewed and why. How to Document Interviews EffectivelyThis is an expanded version of the summaries documented above. Even though some of the information is repeated, be sure to include it so that you can use the summaries and reports separately as standalone documentation of the interviews conducted.For each interview, document:Who conducted the interviewWho was interviewedLocation of the interviewDate of the interviewSummary of the substance of the interview, based on your interview notes or recording.Example:I asked Jane Jameson to describe the events of July 13th, 2016. She said: After work, Peter approached me as I was leaving the building and asked me if I would like to work on his team. When I said that I was happy working with my current team, he told me that my team had too many women on it and that all those hormones are causing problems so I should think about moving to a sane team.I asked her how she reacted to that. She said: I told him that I found that offensive and he said that I needed to stop being so sensitive. I just walked away.I asked Jane to describe the events of the next day. She said: The next day he came to my desk and asked me if I had given any information on reporting various types of crimes to Justice Department comments and other government agencies and trusted partners.Here, you can also learn how to submit complaints related to discrimination or civil rights violations and complaints against DOJ employees or DOJ-funded organizations. Report a CrimeSubmit a ComplaintReport a CrimeSubmit an FBI Tip online, or call your local FBI field office Legal Attach Office (U.S. citizens overseas)See USA.govs Reporting Crimes page for information on how to report and respond toother types of crimes and criminal behaviorSubmit a ComplaintIf you or someone else has experienced discrimination, contact us by visiting theCivil Rights Reporting Portal.The Civil Rights Division enforces federal laws that protect people from unlawful discrimination. Learn how you can take part in the encyclopedia's continued improvement.GL Mk.II transmitter viaRadar, Gun Laying, MarkI, or GL Mk.II for short, was an early World WarII radar system developed by the British Army to provide information for anti-aircraft artillery. There were two upgrades, GL/EF (effective finder) and GL Mk.II (pictured), both improving the ability to determine a target's bearing and elevation. GL refers to the radar's ability to direct the guns onto a target, known as gun laying. The first GL sets were developed in 1936 using separate transmitters and receivers mounted on gun carriages. Several were captured in 1940, leading the Germans to believe falsely that British radar was much less advanced than theirs. The GL/EF attachment provided bearing and elevation measurements accurate to about a degree; this caused the number of rounds needed to destroy an aircraft to fall to 4,100, a tenfold improvement over early-war results. The Mk.II, which wrestle to directly guide the guns, lowered the rounds-per-kill to 2.750. About 410 Mk.IIs and 1,679 Mk.IIs were produced.
