If you are also one of them who want to unlock Bootloader on their Samsung mobile phone, then Congrats! You landed on the right page. Because we bring the simplest and 100{9dede34e9644ed13ea1f96f309e21dc312bfa}bdf12d2235c32a48da321392} working method to unlock Bootloader on Samsung devices. How to Unlock Bootloader on Samsung The reason behind a lot of searches for the bootloader unlocking method is that Unlocking Bootloader can give root access to the device and install Custom ROM on your devices. But with these advantages, Bootloaders also includes some disadvantages you will learn in the article. Then go through the article and you learn a lot more about it. What is Bootloader? A bootloader is a code that is responsible for all tasks occurs during boot and operating system processes. You can find it on all kinds of Android devices. Bootloader examines for a device that when entering a recovery mode or when performing the Android. Several devices can have different Bootloaders as different manufacturers use different hardware in their devices. And you will always find it stuck in your devices by default. So that the operating system that is already installed can be used. And the user cannot install custom ROM. Before applying any method or performing any activity, it is important to learn the advantages and deficits of this. So you should read the list of benefits and limitations of Unlocking bootloader. Check also:- Wi-Fi Password Recovery No root benefits of unlocking bootloader There are some advantages of Unlock Bootloader on your device. And probably for which you are here to know the method of unlocking the bootloader in a Samsung phone. Some of the benefits are mentioned below. You will be allowed to root your device. You will be able to install custom ROM. Disadvantages of Bootloader Unlocking Along with advantages, there are some limits also that we called Disadvantages. Here is the list of disadvantages that you can pass after unlocking the bootloader on your device. Device warranty will be Void. If you install Custom ROM then it can affect the performance of the device. And even your device can die permanently. Over-Heating can also become a major problem and risk. You cannot get any official software updates. And the device can be easily accessible. How to bypass the Patter lock will become easy. It is recommended to back up all data. Because, during the processing of the method you lose all data. You have to follow the tutorial carefully. And if you do not follow, then we will not be responsible for any loss or damage. Check also:- How to install Android Fastboot Reset Tool? How to unlock Samsung bootloader (PC / laptop)? In this method, we will describe how to unlock Samsung with computer or laptop. But to proceed with this method, you will have to set SDB and Fastboot on your PC. We will also describe it in the below mentioned steps. We split the complete method into two sections. With the first, you can set ADB and Fastboot on your PC. And in the second, you will learn how to unlock Bootloader in a Samsung device. Requirements to unlock Samsung Bootloader Before moving to the method, you must make sure you have fulfilled all the requirements that are mentioned below. Therefore, take a look at the list below. Active Internet connection Computer / Laptop USB cable ADB and Fastboot Tools And above all, a good tutorial. #Step1: ADB and Fastboot driver configuration on your PC To proceed to the unlock bootloader, you need to install and configure ADB Driver and Fastboot on your computer or laptop. Note: This method to set ADB and Fastboot is for Windows. We have a separate post on this particular topic for Windows, Mac and Linux. So, if you are not a Windows OS user, check the link below first. Check out:- How to configure ADB and Fastboot on Windows, MAC and Linux first, download the ADB driver for Windows by clicking the link above. Once the adb-setup-1.4.2.exe file is downloaded successfully, then run or double-click it. After the cmd window will appear on the screen. You need to type 'Y' and press Enter for all the next widows to say YES to all the suggestions. This is it. it will install the ADB and Fastboot on your PC / laptop. Once installed, the window closes automatically. #Step2: Unlock bootloader in Samsung phone After installing the ADB and Fastboot on your PC or laptop with the above method, you must follow the instructions below. First of all, you need to enable USB removal options and OEM unlocking on your device. To do the same, Go to Settings > Information on Phone > Number of construction (Click 7-8 times). After that Go to the development options in the settings. And then enable the USB Debugging first. And then Enable the Unlock OEM option. After that, connect your mobile device to your PC / laptop using a USB cable. Now Open command Prompt (cmd) on your computer / laptop. And type the command below. And press Enter. This can send the USB debug permission request to the mobile device. Tap Accept. Note: If you get a confirmation screen on your device, then go to 'Yes' option using the Vol Up button. And then select it by pressing the Power button. Otherwise, skip the ride. Then type another command and press Enter. This will also restore the factory the device. And after processing is over, you're all done. You have successfully unlocked the bootloader on your device. Check also:- How to download free paid app on Android final words Finally, in conclusion, I hope you enjoy the information we shared above. And the article will help you unlock Bootloader And be careful while applying the method and please back up all data before anything. Otherwise, the device may damage or you will lose all your data.
