Gre word list pdf 2019

you are struggling to remember words and not sure which wordlist to prepare, you are not alone!. When I was preparing for GRE verbal, I was bombarded with multiple word lists like Magoosh, Barrons-333, Manhattan and so on!! Everyone endorsed their choice of list because every list has its own advantages, so I was confused which list to choose. So came up with an idea — Let's combine all of them and extract most frequent words from each list. First I collected following famous lists you might've heard of: Barrons 1100 Words, Magoosh 1000 Words, Majortest Essential 1500 Words, Princeton 500 Words, Kaplan 500 Words, Manhattan Basic+Essential 1000 Words. After combining all above words into a text file, I wrote a python script to rank words according to their frequency of appearance in lists. So suppose word 'assuage' is present in 5 of above lists then its frequency is 5. After calculating frequencies for all words in above lists, I sorted them according to frequency number. Now, words with frequency 3 and above are must do, because they are present in at least 3 lists! You can even go for 2 frequency words if you have time. But make sure you never miss a word from the best-of-the-best words from frequency 5 & 6. I was myself struggling with words. Using this approach along with other techniques such as mnemonics, I could improve 10 points in verbal section (146 to 156) Ssm stats: Total words : 5600 Total unique words : 2959 Words with Frequency 6 : 41 Words with Frequency 5 : 110 Words with Frequency 4 : 185 Words with Frequency 3 : 286 Words with Frequency 2 : 588 Words with Frequency 1 : 1735. Sorted list and code is hosted on Github: you liked it, please start/fork/follow me on Github. Suggestions and improvements welcomed. Tweet me at "Twas brillig, and the slithy toves Did gyre and gimble in the wabe: All mimsy were the borogoves, And the mome raths outgrabe." - "Jabberwocky" by Lewis Carroll. Those were the opening lines from the poem, "Jabberwocky" written by Lewis Carroll in 1871. Thankfully, today we don't have to deal with this kind of mind boggling English Vocabulary and neologisms like 'galumphing' and 'chortie' in the GRE. But that doesn't mean that you won't be encountering words such as Mealy-mouthed, Astringent, Miasma, Crotchetty etc. in the reading comprehensions or the sentence equivalence questions in your GRE Vocabulary sections. The English Vocabulary always has proved to be one of the most intimidating nemesis for many GRE aspirants. English Vocabulary Lists and Vocabulary flash cards are available a dime a dozen both in the online and offline media. But the real problem is that, the GRE aspirants encounter the hurdle of too many choices. With so many seemingly potent GRE word lists available, it often becomes difficult to narrow down on one. This leads to many ineffective ways of choosing a good English vocabulary list that is good for your GRE preparations. One common misconception is that the more the number of words the English Vocabulary list has to offer, the better it is. Wrong. A good Vocabulary list should offer high frequency GRE words. There is no point if a Vocabulary list has words like 'frumious bandersnatch' and 'vorpal blade'. You need the vocabulary list to write the GRE, not to understand Lewis Carroll novels! Right? Another ineffective way of preparing for GRE Vocabulary is vehemently cramming up words and their definitions. This most definitely never works. Apart from being tough and tedious, this process has no long term retention value. Just remembering GRE words and definitions isn't enough. You have to train your brain on how to identify the meaning and usage of the word in the context of the sentence. One more mistake students do is start learning GRE words in an alphabetical order. Even though this might seem to be a simple enough mechanism, it is grossly ineffective. By the time the students reach the latter half of the alphabets, they tend to forget the meanings and usage of the GRE words starting with the earlier alphabets. Download GREedge eBook on 'How to learn words' to score high in your GRE Verbal. Hence, a good vocabulary list should have the following features: Only the High Frequency GRE words. No unnecessary extra words. A recommended learning order - As I mentioned earlier, learning the GRE words in an alphabetical order is found to be ineffective in most cases. Hence, the Vocabulary list should have the words in a more scientific and logical order. It helps if the Vocabulary list is broken down into multiple 'packs' of related words. Related Words - Sometimes to understand the meaning of the GRE words, it is necessary to understand the meaning of the related and similar words also. Unless and until you know the subtle differences between them, it becomes very difficult to retain their meanings in the memory and leads to ambiguity during the exams. Usage - The definition should be associated with a proper example of how to use that GRE word in a sentence. Picture Cues - We tend to remember and recall pictures more than words. If the word and its definition is accompanied by a related picture, it becomes easier to remember. Figure of Speech - The vocabulary list should ideally provide the figure of speech of the word, so that it becomes easier not just to remember but also understand the word properly. Synonyms and Antonyms - Sometimes a few words appear alien to us and difficult to remember but we do understand the meaning of its synonyms or antonyms. This in turn helps us to learn the original word. Thus, a GRE Vocabulary list having synonyms and antonyms as well is very handy. Needless to say, GRE Vocabulary lists containing all these features are rare to find. I would recommend anyone who is planning to write the GRE one such tool WordBot.
