Duff

Alexandra Duff Podiatrist, Diabetic Wound Care Specialist Alexandra is a Podiatrist trained in the United Kingdom and arrived in Hong Kong in 2007. She graduated from the University of Leicester in 1996 with a BSc (Hons) Podiatry. In 1999, she completed postgraduate qualifications in Education (the University of Wolverhampton) In 2006, she attained an MSc in Diabetes (the University of Roehampton). Alexandra continues to be a registrant of the Health and Care Professions Council, United Kingdom to ensure that her clients have confidence and security in her care. Alexandra has had an accomplished career in all facets of Podiatric Medicine and has worked in the National Health Service and the Hong Kong Hospital Authority including the post of Chief Podiatrist at Darent Valley Hospital in the United Kingdom. She is published in the Diabetic Foot Journal as well as articles and comments in the South Morning China Post, the Wall Street Journal and local Hong Kong publications. As a Podiatrist, Alexandra has also taught biomechanics and orthotic manufacture, which proves invaluable when dealing with biomechanical problems. Such insight and strong focus on post-surgical rehabilitation and injury prevention, ensures application of current evidence based practice. Alexandra applies this approach to gait analysis and running assessments to ensure that optimal strategies are adopted for improved technique and injury prevention throughout the musculoskeletal system. This is further enhanced by Alexandra's commitment to work with a multidisciplinary team. In addition to the athletic population, Alexandra has a special interest in paediatric conditions particularly working with children with special needs. She provides a screening service to ensure appropriate developmental milestones are attained. This can also assist in early detection of potential musculoskeletal problems related to the lower leg. At Q9 Orthopaedic and Spine Centre, Alexandra treats the full spectrum of Podiatric conditions, including paediatrics, gait analysis, biomechanics of the lower limb, sports injuries, orthotic management, nail surgery, fungal nail infections, diabetic foot care including wound management as well as corns and callus management and nail care. 臀部，屁股 Get off your duff and start working. 起來開始工作了。 Sort Featured Best selling Alphabetically, A-Z Alphabetically, Z-A Price, low to high Price, high to low Date, old to new Date, new to old We've detected that JavaScript is disabled in this browser. It's a new term for an ancient practice—using a perceived less attractive person to make you look better. Humans. While duff is no doubt shallow and mean, it also apparently has some scientific basis. A 2016 University of London psychology study revealed that being around an ugly friend does, in fact, does make you look better. Scientists. Duff made its way into popular culture in the 2015 comedy film The DUFF, based on a 2011 novel of the same name written by Kody Keplinger when she was only 17. Set in a suburban Atlanta high school, The DUFF centers around Bianca, who tries to reinvent herself after discovering that her peers consider her the duff of her friend group.
