Principal Investigator/Program Director (Last, First, Middle): Jiang, Jianfei

BIOGRAPHICAL SKETCH

Provide the following information for the key personnel and other significant contributors in the order listed on Form Page 2. Follow this format for each person. **DO NOT EXCEED FOUR PAGES.**

NAME	POSITION TITLE		
Jianfei Jiang, Ph.D.	Research Assistant Professor		
ORCID iD (if any)			
EDUCATION/TRAINING (Begin with baccalaureate or other initial professional education, such as nursing, and include postdoctoral training.)			
INSTITUTION AND LOCATION	DEGREE (if applicable)	YEAR(s)	FIELD OF STUDY
Lanzhou University, Lanzhou, Gansu, China	B.S.	1991-1995	Biochemistry
Shanghai Institute of Materia Medica, Chinese Academy of Sciences, Shanghai, China	Ph.D.	1995-2000	Pharmacology
University of Pittsburgh, Pittsburgh, PA	Postdoctoral fellow	2000-2003	Toxicology
University of Pittsburgh, Pittsburgh, PA	Research Associate	2003-2005	Toxicology

Please refer to the application instructions in order to complete sections A, B, and C of the Biographical Sketch.

A. Positions and Honors

1999 Outstanding Award of 4th Ph.D. Forum of New Medicine in China
2000 DIAO Scholarship of Chinese Academy of Science
2000 Excellent Award of 9th Meeting of Cancer Research Fund in China
2003 American Society of Toxicology
2003 American Society for Experimental Biology and Medicine
2005 American Radiation Research Society
2005 Research Assistant Professor, Environmental and Occupational Health, University of Pittsburgh, PA

B. Publications

1. Arroyo A, Modiransky M, Serinkan FB, Bello RI, Matsura T, Jiang J, Tyurin VA, Tyurina YY, Fadel B, Kagan VE. NADPH oxidase-dependent oxidation and externalization of phosphatidylserine during apoptosis in DMSO-differentiated HL-60 cells: Role in phagocytic clearance. J Biol Chem. 277: 49965-49975, 2002.

2. Jiang J, Claudette M, St Croix, Nancy Sussman, Qing Zhao, Bruce R Pitt, and Valerian E. Kagan. Contribution of Glutathione and Metallothionein to Protection Against Copper Toxicity and Redox Cycling: Quantitative Analysis Using MT-1⁺ and MT-1⁻ Mouse Lung Fibroblasts Cells. Chem Res Toxicol 15:1080-1087, 2002.

3. Bayr H, Kochanek PM, Liu S-X, Arroyo A, Ojipov A, Jiang J, Wisniewski S, Adelson PD, Graham SH, Kagan VE. Increased S-nitrosothiols and S-nitrosoalbumin in cerebrospinal fluid after severe traumatic brain injury in infants and children: Indirect association with intracranial pressure. J. Cerebral Blood Flow and Metabolism. 23: 51-61, 2003.

4. Liu WJ, Jiang J, Xiao D, and Ding J. Down-regulation of Telomerase Activity by Protein Phosphatase 2A Activation in Salvicidin-Induced Human Leukemia HL-60 Cell Apoptosis. Biochemical Pharmacol. 64: 1677-1687, 2002.

5. Kagan VE, Borisenko GG, Serinkan BF, Tyurina YY, Tyurin VA, Jiang J, Liu SX, Shvedova AA, Fabeliak JP, Ushiang W, Fadel B. Apoptotic sensitivity of apoptotic cells for macrophage oxidation, externalization, and recognition of phosphatidylserine. Am J Physiol Lung Cell Mol Physiol. 285: L1-17, 2003.

6. Borisenko GG, Matsura T, Liu SX, Tyurin VA, Jiang J, Serinkan FB, Kagan VE. Macrophage recognition of externalized phosphatidylserine and phagocytosis of apoptotic Jurkat cells—existence of a threshold. Arch Biochem Biophys. 413: 41-52, 2003.

Change the display order by dragging and dropping each tab. A link to connect to ORCID is provided and can be used to retrieve citations stored in your ORCID record (see Figure 9). Figure 10: ERIC Author limiter. Select up to four citations to be displayed for each contribution. Hidden research awards will be shown in gray and will not be displayed when a SciENcv biosketch is shared through a URL or printed (see Figure 24). Figure 4: Add Degrees and Training to an IES biosketch. Sharing and Downloading a SciENcv IES Biosketch SciENcv biosketches are set as private by default; however, a profile can be shared with others through a public URL. There is an option to hide entries. Be sure to select the appropriate category in the "Your Role" drop-down menu (see Figure 23). SciENcv uses markdown syntax which allows you to add simple formatting to your personal statement. Selecting this option would make your My Bibliography collection public. Figure 14 shows the Personal Statement section of newly added citations from ERIC to SciENcv via My Bibliography. Click "Export" (see Figure 11), select the number of records to include, and click "Create file" (see Figure 11). Smith (see Figure 11). Research Support/Scholastic Performance The Research Support/Scholastic Performance section displays a list of your ongoing and completed research awards information. Figure 9: Select publications from My Bibliography. To automatically receive the latest news and announcements regarding major changes and updates to PubMed Central please see the subscribe page.] As of August 2016, PMC is home to four million articles! To make this wealth of full-text content easier to navigate, PMC has rolled out a few updates: Search Result Filters On all search results pages, you will now see filters (similar to PubMed filters) on the left-hand side that allow you to filter your results by article attributes, publication date, research funder, and search fields. For formatting help, click the icon. Each contribution entry has two parts: a description and relevant references of up to four peer-reviewed publications. Contribution tabs can be removed by clicking "Delete this contribution." To save edits, click "Done" (see Figure 21). You can create up to five contribution tabs by clicking "Add another contribution" (see C in Figure 21). Each biosketch can be independently set up as private or public. Figure 16: Add other experience and professional membership form. Figure 3: Create an IES biosketch using information from an external data source. If you want to print or share your biosketch, but only want selective content to be displayed, uncheck the checkbox next to the entry you would like to hide, and click "Done" (see Figure 18). Figure 11: ERIC export citation file option. By Lidia Hutcherson National Center for Biotechnology Information Page 2PMC New Search Result Filters and Updated Reference List Display. Figure 6: Delete/edit or hide/display education or training. Uncheck the box next to the awards you want to hide and click "Done" (see Figure 24). A link to connect to ORCID is available and can be used to retrieve citations stored in your ORCID record (see Figure 20). Figure 1: PMC search results with Open access filter activated. To edit or delete an entry, click "Edit entries" (see Figure 5) and click either "delete" or "edit" next to the selected degree or training entry (see Figure 6). Figure 23: Add award form. To narrow your retrieval to a specific author, select the author name from the Author limiter on the left side of the screen (see Figure 10). For example, author: Theodore R. To edit or delete an entry, click either "Delete" or "edit" next to the selected work experience, professional membership, or honor entry. Contribution to Education Research The Contribution to Education Research section provides a place to describe five of your most significant contributions to educational research. 2016 Jul-Aug;(411):e5. Figure 8: Write a personal statement and add up to four citations. Publications that are included in the IES ERIC database must be added to My Bibliography using an exported file from ERIC (see "Exporting Citations from ERIC to My Bibliography") or added manually using My Bibliography templates. Additionally, you have the option to add awards manually if your research awards were not issued by NIH (eRA tab). Figure 20: Select publications from My Bibliography. After clicking "Create," SciENcv will populate the new IES biosketch with information stored in your selected external data source. To add relevant citations from My Bibliography for each contribution, click "Select citations" (see B in Figure 19). SciENcv profiles in the IES biographical sketch format can be downloaded in PDF, MS Word, or XML (see B in Figure 25). In My Bibliography, the default setting for the "Sort by" drop-down menu lists citations by date (newest to oldest). Figure 2: Cited article that was retracted. Sign in to NCBI and click "Manage My Bibliography." In My Bibliography, click "Upload a file" to upload the ERIC citations file you saved (see Figure 12). Additional information on searching the ERIC database is available in this IES video, Education and Training Under Education/Training, enter your academic degrees and training, in chronological order, using the Degree and Training radio buttons. The citations will display in My Bibliography with a pencil icon, and you will be able to further edit these citations (see Figure 13). Enter your ongoing and completed research awards. Figure 7: Personal Statement section. Personal Statement In the Personal Statement section, enter a brief personal statement and up to four peer-reviewed publications that highlight your work experience and qualifications. Each entry window has a different set of choices (see Figure 4). Citations stored in My Bibliography can be uploaded initially by clicking the "Select citations" link (see Figure 8). Click "Change" (see A in Figure 25) and a URL will be provided. Figure 21: Add contribution tabs and select to include a link to My Bibliography collection. To enter a description, click "edit" (see A in Figure 19). The exported ERIC citations are immediately listed in My Bibliography and can now be selected in SciENcv. For example, "Smith, Theodore R." Or use the ERIC author "field-term" syntax to limit your search to the author field. This update will help users more easily identify post-publication updates to existing research. Figure 5: Education/Training section. Figure 18: Delete/edit or hide/display entries in Positions and Honors. Figure 25: Share and Download SciENcv IES biographical sketch. Hutcherson L. 2016 Jul-Aug;(411):e6 2016 August 19 [posted] [Editor's Note: This is a reprint of an announcement from the National Center for Biotechnology Information (NCBI). In addition, users can also export their citations from the IES Education Resources Information Center (ERIC) database to My Bibliography. Figure 17: Add honors form. My NCBI — Institute of Education Sciences Biographical Sketch in SciENcv. Figure 22: Research Support/Scholastic Performance section. Figure 2: Create an IES biosketch copying information from an existing My NCBI document. This newly added biosketch format is available to download in PDF, MS

Word or XML, and users are able to share their SciENcv IES biosketches through a public URL. Figure 14: SciENcv Personal Statement section. In SciENcv, you can selectively hide the research awards that you wish to omit from the display in your biosketch. For the manual option, assign a Biosketch name to the new profile, select the IES Biosketch format option, select "Start with a blank document," choose a Sharing option to make the new profile public or private, and click "Create" (see Figure 1). Reference List Display Using related article data available in PMC, articles that cite papers that have been either retracted or named in a Findings of Research Misconduct issued by the HHS Office of Research Integrity and not yet retracted will now include a red hyperlink to the relevant notice directly from the article's reference list. Save the generated file. Under the subtitle honors, enter honor society memberships, honorary titles, and other honorary awards (see Figure 17). After clicking "Create," SciENcv will generate a duplicate in the IES Biosketch format of the selected existing profile in the IES Biosketch format (see Figure 2). Figure 13: Uploaded citations from ERIC listed in My Bibliography. To create a profile from an external data source, assign a Biosketch name to the new profile; select the IES Biosketch format option; select "External Source" to find the data source to populate the new biosketch; and specify whether to make the new profile public or private (see Figure 3). See the PMC User Guide for more information on these filters. The IES biographical sketch consists of five sections: Creating SciENcv Profiles Using the IES Biographical Sketch Format There are three ways to create a SciENcv profile in the IES biographical sketch format: entering information manually, copying information from an existing SciENcv biosketch, or using an external data source to populate a biosketch. Citations can also be sorted by first author (alphabetically) or by article title (alphabetically). Citations can also be sorted by the first author (alphabetically), or by article title (alphabetically). To copy from an existing profile, assign a Biosketch name to the new profile, select the IES Biosketch format option, select "Existing Biosketch" to find and highlight the biosketch you wish to copy, and specify whether to make the new profile public or private. NLM Tech Bull. If you want to download or share your profile, but only want selective content to be displayed, uncheck the checkbox next to the entry you would like to hide, and click "Done" (see Figure 6). For multiple entries, click "Save & add another entry." Figure 15: Add employment form. In the My Bibliography tab, the default setting for the "Sort by" drop-down menu lists citations by date (newest to oldest). Once you have finished editing, adding, or deleting information, click "Done" to save your updates (see Figure 18). Figure 19: Contribution to Education Research section. Figure 1: Create an IES biosketch using a blank document. To start, click "Edit Statement" (see Figure 7). 2016 August 16 [posted] SciENcv users can now create biosketches in the Institute of Education Sciences (IES) biographical sketch format which can be used to apply for IES funding. Under the subtitle Employment and positions, enter your past and present employment (see Figure 15). There is also an option to include a URL to your My Bibliography collection of published research (see D in Figure 21). Page 3 Two Updated SNOMED CT-Related Releasesb82016 August 23 [posted] July 2016 International Release of SNOMED CT Available for Download b72016 August 02 [posted] Updated CMT Subset Available for Download.b62016 July 28 [posted] HTTPS at NCBI: Guidance for NCBI Web API Usersb52016 July 28 [posted] MedlinePlus.gov Domain Announcementb42016 July 18 [posted] 2016 DailyMed/RxNorm Jamboree Workshopb32016 July 18 [posted] NCBI Webinar: "Important Changes to NCBI Web Protocols" on July 27, 2016b22016 July 15 [posted] Updated SNOMED CT to ICD-10-CM Mapping Fileb12016 July 07 [posted] To add citations to My Bibliography, export a file from ERIC or add them manually using My Bibliography templates. If your publications are included in the IES ERIC database, you can populate SciENcv biosketches with those citations if they are in My Bibliography. These filters replace the Limits page and allow you to more readily: You can now also quickly add articles that are under a 12-month or less embargo in PMC to your search results by selecting the "Include embargoed articles" filter option under Text Availability. Enter your personal statement and click to save your narrative. If you linked your ORCID account to My NCBI, your SciENcv profiles will have the research awards included in your ORCID record. Work Experience, Professional Memberships, and Honors The section titled Positions and Honors consists of three parts: employment, other experience and professional memberships, and honors. Under the subtitle other experience and professional memberships, enter other work experience and professional memberships (see Figure 16). Exporting Citations from ERIC to My Bibliography In ERIC, enter the full author name or last name and initials in the search box. Once you have finished editing, adding, or deleting information, click "Done" to save your updates. Figure 12: Upload a file option to add citations in My Bibliography. Figure 24: Delete/edit or hide/display entries in Research Support/Scholastic Performance. Select up to four citations to be displayed in this section. Select the User tab and click "Add another award" (see Figure 22). Note that data download, when linked to My NCBI, is possible from three sources: eRA Commons, Open Researcher and Contributor ID (ORCID), and National Science Foundation.
