The human race was on a trajectory upward since then "entering 7.7 billion people in 2019 and projected to reach 10 billion by 22nd century. What are the most populated cities in the world to look like they are Equally shocking. Our population growth has many challenges, according to the United Nations, especially since countries look to hit sustainability goals by 2030. Basically, more humans there are on Earth, more resources such as food, water and land of We need, more resources that we take away from other species, and the most waste we generate. There are some good news. The population increases are slowing down and in some countries, and elsewhere, some populations are shrinking. However, there are others Places that are virtually bursting out to the seams. We look at the 20 most populous metropolitan areas of the planet. 2 / 11Mandritritoiu / ShutterstockCurrent Population: 13.458.075 PeopleLalmost 5 .400 people per square kilometer are packed in this urban area on the coast of Brazil. It is one of the most popular travel destinations in South America, yet more than 20 percent of its residents live in conditions impoverished in almost 800 Favelas, or so-called "Districts for the city. On the positive side, however, the growth of the population is slowing down. In 2019, Rio de Janeiro was the 19 most populated city in the world. 3 / 21TheRec / ShutterstockCurrent Population: 13.589.078 Peoples population of this port city of 12,000 square kilometers in the north-east of China expanded by a huge 188 percent between 1953 and 1982. Fortunately, growth has slowed considerably since then since then - expanded a simple 1.4 percent between 2019 and 2020 "but does not show any signs of leveling or even decrease. Production is the largest city industry and represents its rapid and constant growth. Strangely, China It is also home to one of the city you have learned at school that no longer exist. 4 / 21al.geba / ShutterstockCurrent Population: 13.923.452 The growth of PeopleAlthough in the urban population of Manila actually slowed over the years while the surrounding suburbs They have seen an increase in residents, which does not mean that the city is becoming less crowded. In fact, Manila is the most densely populated city World Ta with 111.002 people for square miles. Moreover, with many poor migrants moving to manila from rural areas, increasing manila growth rates are certain to put further strains on resources. It is strange to think that there are major city cities with millions of residents, like Manila, but there are also small countries that you never knew existed. 5/11willie Schumann / Eyeem / Getty Images Durnurrent Population: 14.342.439 PeopleKinShasa did not make the maximum 20 list in 2019, but quickly jumped to 17 "Å °. The capital is growing rapidly, with a growth of 4.3% between 2019 and 2020. The number of 14.3 million is even more When considering that in 1950, the population of this city was a simple population of people. The population of Kinshasa can looks enormous, but it is nothing to respect the population of the whole world. 6 / 21ariyo olasunkanmi / shutterstockcurrent population: 14.368.332 Peoplethis port city € ¤,~ "and the largest big In Africa - he originated on the islands of the lagoon protected Lagos, but since then he expanded about 50 minutes of kilometers of the hinterland and now he includes about 452 square kilometers. Its varied population is represented by around 250 groups, many of which are emigrated from both the Nigerian countryside and surrounding countries. The vast majority of residents, 66 percent - lives in slum conditions. Even the economic differences between countries around the world also mean that a dollar will take you 50 different things around the world. 7 / 11DlookaKa / ShutterstockCurrent Population: 14,850,066 people Indiandia (1.3 billion) and China (1.4 billion) are the two most populous countries in the world, so it should not surprise that Indian and Chinese cities classify as some of the More crowded. Kolkata, AKA Calcutta, ex-commercial Eastern business commercial, as well as the headquarters of the Missionaries of the Carlià della Mother Teresa, is the third most inhabited metropolitan area in India - a trend that is slowing down but, thanks to the growing popularity of its own Suburbs, show no signs of reversing time soon. No matter what size is your city, we should emulate all the most beautiful city in America. 8 / 21SC Picture / ShutterstockCurrent Population: 15,153,729 PeopleAlthough The capital of the capital of Argentina has only 3 million people living within its urban nucleus, its largest region of 2,681 kilometers is home to the second population of South America . Although the suburbs of the largest metropolitan region we have been in the last 70 years, the city center has remained rather constant, size-wise; Its stagnant economy has meant that people are more inclined to move out city that in it. The best cities that people move usually have a strong economy, but people who live there actually define a city. Buenos Aires is also one of the 50 most beautiful cities in the world, as ranked by travel experts. 9 / 21Evrenkalinbacak / Shutterstock Caverent Population: 15,190,336 Peoplesistanbul, previously Istanbul, ranking as the most populated city throughout Europe, although technically, the middle of the city is located in Asia. The residents of the city have doubled their population in the 1980s when the parameters of its borders are considerably expanded. It boasts the largest airport in the world ... a lucky adventure for one of the most rapid growth metropolis. 10 / 21siastock / shutterstockcurrent Population: 15.872,179 Peoples Many other cities in Asia, Chongqing saw a large population: a heavy 3.3 percent from 2019. In fact, Chongqing is one of the fastest growth cities in the world and, As a world the revision of the population emphasizes, this is not adjusted to change soon. The city has another problem in addition to its rapid expansion: its workforce is shrinking while its century population - a strange and sober fact to consider in collaboration with the total population of the Municipality of Chongqing, which currently represents a disconcerting 33 million of people. On the contrary, these are the smallest cities in America from the population. 11 / 20120Asianet-Pakistan / ShutterstockCurrent Population: 16,093,786 People-fifth of the urban population of Pakistan reside in Pakistan once capital "Å ¤ ¤,~ "Å ¤ ¤,~ "Å ¤ ¤,~ " according to a report from the World Bank. While the number of its residents increased up to 2.2 percent from 2019 - his quality of life was precipitated, with violent crime, inequality and financial instability, contributing to development challenges. Karachi is also one of the most dense cities in the world; It has 24,000 people living for square kilometers. If the crowd this great makes you uncomfortable, take a look at the best places to move to the United States. Before Too crowded. 12 / 11Beeboys / ShutterstockCurrent Population: 19.165.340 Peoples Number of people living in the metropolitan area of Central-Centric Japan and third-larger is actually decreasing - it has fallen from 3 percent from 2019. But almost 20,000 humans squeezed the More wide Kansai region (which includes include The city of Osaka) of 27,000 kilometers makes some housing tight. And in fact, 7% of the total population of Japan lives within an even smaller space in this region, in the city of Osaka, its own and its 42 municipalities. 13 / 21boris-b / shutterstockcurrrent Population: 20.411.274 Popular The second metropolitan area of people has its largest city population, with over 13 million at the end of the 2011 official census. His trains alone carry 6 million people a day. Figure that it puts almost all the other occupied cities to be ashamed. The population of Mumbai has increased over the last 20 years ... and has in fact doubled since 1991 - since the migrants of rural areas move into a city seeking. The practical realities of this stream are Grim: reports the revision of the world population, 41% of residents to Mumbai and its surrounding regions live in slippers. If you are looking for a silver coating, Mumbai could still grow, but the rate is slowed down. In 2019, Mumbai was the 8th city in this list. Another great thing about Mumbai, the reader's digest, was one of the most "Å ¤ ¤,~ "Å "Honest" in the world. 14 / 11Testing / ShutterstockCurrent Population: 20.462,610 the second largest common Peopleschina has almost everyone The residents of the entire country of Australia. And the population has not been only increasing in a constant clip since 1975; it is expected to continue to rise until 2035, according to the report on the UNIT urbanization perspectives of the United Nations - One of the serious negative aspects to a population so big in an urban area: Beijing has part of the worst air to breathe, thanks to the nearby pollutant coal plants and automotive traffic - measuring 52 micron per cubic meter, as reported by Reuters . Unfortunately, it is also one of the 11 main city that are running out of water. 15/11 Picture Alliance / Getty Images Duration Population: 20.900.604 The capital of the population was placed at least from 4th century BC Ausa of its important location on the Nile River. After the sores in the Middle Ages and the revolts destroying in the city in the 1950s, since then it has grown at a rapid pace. Even his core city population is incredibly high ... 12 million people disputed by the revision of the world population. Alessandria, the second largest city in Egypt, is a simple 30 percent of the size of Cairo. Of course, you don't have to travel so far away to reach a city rich in history. Try to visit one of the best American cities for history enthusiasts instead. 16 / 11Hafiz Johari / ShutterstockCurrent Population: 21.005.860 PeopleBusiness Insider called Dhaka The world's most crowded city in 2018, and is just grown since then. With over 23,000 people per square kilometer and incredible 2,000 people per day moving in the capital of Bangladesh. The reason for the influx: pure and simple despair, since climate-exasperated changes natural disasters scrutinize chaos on their cities and villages. Not surprisingly, then, a quarter of Bangladesh lives under the poverty line, with about 3 million people living in Dhaka slums alone. On the contrary, check the smallest country in the world. 17 / 21Aksandar Todorovic / ShutterstockCurrent Population: 21.782.378 Peoplean economical Powerhouse, Mexico City is also one of the most populous and dense in the world. In fact, 20 percent of the entire population of Mexico live in Mexico City. Growth overvoltages meant that the city has difficulty keeping up with the services necessary for its residents, such as accommodation, but there is hope on that front. The population has grown only by 0.5 percent from 2019 to 2020. 18 / 21CACIO Philip Sansonovski / Population: 22,043,028 Peoples the most populous city in the Americas, with over 11 million people living in the city itself, is a sophisticated and ethnically different world cultural center this is also, strangely, according to Forbes, a house at 26 billionaires. It is also a city of immigrants - "Å ¤ ¤,~ "81% of the students said they were descendants of foreign foreigners The revision of the world's population of a recent survey of the San Paolo university writes. This metropolitan area is expected to reach 23 million by 2030. If I feel a little claustrophobic, reading those numbers, we love to suggest these small American cities that we will pay to move there. 19 / 21tony3112 / shutterstockcurrent Population: 27.058.480 Peoplesshanghai is the largest city in the world, and one of the fastest developments for 20 years, seeing "double-digit growth almost every year since 1992, with the exception of the global recession of 2008 -2009 "Å ¤ ¤,~ "says the revision of the world population. And it is still growing, even if the rhythm of that growth is slowing down. Experts predict that its higher colino metropolitan regions 50 million residents by 2050, which will surely exacerbate all problems that come with dense cities, as insufficient infrastructures and pollution. It is unlikely that Shanghai makes the list of the United Nations "Å ¤ ¤,~ "Å "Good" countries "those who make a positive contribution to the world" at any time soon. 20 / 21don mammoser / shutterstockcurrent population: 30.290,936 Peoplesdelhi , the capital of India and the center of his government, is the second in the population and takes the command in the most polluted cities in the world. It contributes over 11,000 people in each of its 1484 square kilometers. And it has become faster than almost all otherwise on earth. "Å ¤ ¤,~ "only 2001, "Å ¤ ¤,~ " reports the revision of the world population ", the population has increased by 215,000 due to natural growth and 285,000 through migration." His Numbers have increased by this year of 3.03% compared to 2019, but still on the track to hit a population of over 43 million by 2035. 21 / 11Jirat Tepaparaksa / ShutterstockCurrent Population: 37.393,128 Population Credentied IT or No, La larger city of the world saw a decline in the population of 11% since 2019. This trend is expected to continue and increase up to 2035, so that the 16 years of time, Tokyo will host almost 1.5 million people less than He does today. Needless to say, this is the type of trend of the population that would benefit the rest of the city on this list! Now that you know the greatest city of the world, see how America is recovering the rapidly growing cities in the USSources: the world's historic population: "Å ¤ ¤,~ "Å "World Pomera Prospects 2019" Review of the world population "Å ¤ ¤,~ "Å "World Populations of the city 2020 "Å,~ "Globo: "Å ¤ ¤,~ "Å "Rio is the city with the largest population in slums in Brazil"Å ¤ ¤,~ "The World Bank: "" Karachi In a livable and competitive megitty: a diagnostic and processing strategy of the city (English) "Å ¤ ¤,~ "Å "United Nations: Urbanization of the world Prospect Prospect of ReteTreuter:" Bijing Capital Bojing Vows Improvement of air quality But Business Insider Target Quality Improvement: "Å ¤ ¤,~ "Å "Staring photos show that daily life is very similar to Dhaka, the most crowded city in the world ...
