Photos Courtesy: Miquel Llop / Nurphoto Via Getty Images Some of the most popular tourist destinations around the world are also the most infested. It turns out, people love a good ghost. From the door to the hell of the exclusion area of Chernobyl, these places are sure to make you uncomfortable with their creepy vibrations. Noises banging, mysterious screams and appearances are just some of the chances to scary famous sites such as the Amityville's house and the island of dolls. When it comes to a list of terrifying places in the world, you can count on these sites to keep you at night. Known as the "sea of trees," Aokigahara forest appearance fascinating in appearance with lush, green trees. Its beauty attracts tourists and hikers, but, unfortunately, many visitors are lost in the forest and Cana tacho often for help because their mobile phones gives work in the forest. Systems and bushes also gps malfunction within all trees. Photos Courtesy: Jimmyan / iStock / Getty Images In addition to some locals thinking these devices stop working due to the magnetic iron in the soil the forest s. Others believe that it is the work of demons, according to Japanese mythology. To worsen things, the chilling forest is also notoriously called "suicide forest," due to almost 100 people a year on foot in the forest, never come back more. Xochimilco is home to one of the world Creepiest islands: Isla de las Munecas or doll island. Hundreds of dolls are scattered throughout the island, hanging on the trees and linked to the walls of buildings. The only way to access the island is from a boat, if you can convince the captain to take. Photo Courtesy: FlyingCrimsonpig / Flickr According to visitors, the dolls move your hands, whisper with each other and call rowers for the island. Is there someone who really live in reality? No one occupies the island of today, but it was once a vault of a deceased man named Julian of Santa Barrera. After finding a girl drowned in a nearby canal, Barrera started dolls dolls everywhere until her death. Some inhabitants say Barrera has done this to remove the malignant spirits. The Haunting Hill of the Crosses is actually a place of pilgrimage that exists from the 14th century. Exactor origin Hilla S remains a mystery, but all its history, the Hill of the Crosses has created a lot of controversy. In 1940, the rooms held by adding crosses to the site for the rebels of honor that died for Lithuanian independence. The Soviet Union, which occupied Lithuania, at the moment, did not so, so the Soviets destroyed the site three times. Photo Courtesy: Nesssflame / iStock / Getty Images Plus Despite the difficulties, the locals continued to rebuild it. Today, the hill of the Crosses is a tourist destination for viewing of roaming ghosts and feeling disturbing noises. TOUL SLENG has an extremely disturbing past. Once a high school, the site has been transformed into a maximum security prison from Khmer Rossi. Almost 20,000 inmates occupied Tuol Sleng, and has become a center of torture and execution that supported the estimates, 18,133 lives. Photo Courtesy: Christian Haugen / Flickr today, serves as a museum with thousands of photographs of the victims. Some torture rooms remained intact after the red khmer were performed outside the city. The inhabitants of the place say that the ghosts of those who didn't do the corridors and the rooms wander around the prison. If youÂ € is interested in practicing black magic, it is possible to find everything you need in a street market in West Africa known as Akodessewa Fetish market. EA € s WorldÂ € s largest voodoo market selling different types of animal remains. As a result, a foul lusage fetor in the air, contribute to creating a disturbing atmosphere. Photo Dan Sloan / Flickr Animal sacrifices are popular for local medical treatments. The patients who can afford the care in a hospital or at the pharmacy visit fetish market akodessewa to buy medicines and talk to a local healer. Hoping to treat everything from the influence of curses, patients bring unique objects like talismans, amulets and elephant feet. elephant. How difficult it would be if you were to wear a gas mask for life. That € s exactly what life is like for residents on the island of Miyake-Jima. Their lives depend to frequently wear gas masks because they occupy an active volcano. Photo Courtesy: History Public Domain Corso Miyake-JimaÂ € s, the island evacuated more times when Mount Oyama burst. Now, a constant flow of poisonous gas emissions from the volcano, pushing the officials to request the premises to bring gas masks at any time. When the levels of toxic gases in the air jump, alarms Blare all Miyake-Jima to warn residents to wear their masks. Bold visitors can access the island with ferry or by plane. In the west corner of Niagara Falls there is a tunnel with a infestation legend. The inhabitants of the place say a girl has hidden in the tunnel to escape a fire nearby, but then she died in her walls. Other versions of the legend says she was trying to escape her violent father. Photo Courtesy: Zamurca Raluca / Eyeem / Getty Images Now, the tube is called "The Tunnel Screaming". The legend tells that when visitors walking in the tunnel with a match, the ghost of the girl comes out and fills the passage with her screams. Do you courage to walk through the tunnel in a black night like pitch? He claimed to be "more infested house in Australia", Monte Cristo looks like a fascinating Victorian house outside. But inside it, it a s different story. Visitors reported a lot of paranormal activities, including ghost noise, poltergeists and strange spheres. Even better, Monte Christ is also provided with apparitions. Photo Courtesy: Denisbin / Flickr Everything started after Elizabeth CrawleyÂ € s Disappeared husband in 1910. She lived in isolation until her death, and her ghost is said to torment the reasons, creating cold points. Mount Christ also has a story of mysterious, tragic accidents, which caused two other ghosts: a woman wearing a dress and a stable boy around the bedrooms. Abrupt temperature drops and something invisible by pulling clothes are common phenomena to Edinburgh Castle, which makes this destination a chilling adventure. Edinburgh Castle has a dark and tragic past. From the second century AD, it was the site of surprise attacks and 23 numerous executions. Photo Courtesy: John Hamilton / Eyeem / Getty Images Residents believe Edinburgh Castle is obsessed with Duke Alessandro Stewart of Albany. Lady Janet Douglas of Glamis and a Piper. A weak echo of inexplicable music travels through the rooms and corridors, and a night visit will surely give goose bumps. One of the unmissable attractions of London is the Tower of London, an impressive medieval structure built in 1078. During its own history of 1,000 years, the Tower of London served as a place of executions, torture and murders. As a result, many ghosts wander the attraction, and few are really famous. Photo Courtesy: Westend61 / Getty Images Henry VIII condemned his wife, Anna Bolena, to death after her gave birth to a dead child. The spooky figure of him is known to persecute the church of St. Peter constraints in the tower. Two young principles are also said to wander around the site, chuckle in their night shirts. The mysteriously disappeared couple after their uncle, King Ricardo III, greeted the throne. Other reported spirits include Enrico VI, Lady Jane Gray and Margaret Pole. The Stanley Hotel is known for Spooking Stephen King in shining writing. At the hotel, the lights light up and turn off, and the doors open and close themselves. The sounds of laughter and steps can be heard when no one else is around. Unexplained shadows, air currents and chills pop-up from nothing. Photo Courtesy: / iStock / Getty Images Some guests say supernatural activities are caused by the eternal spirits of the Stanley Hotel. A remarkable ghost is Elizabeth Wilson, the former head housekeeper and presence in the room 217. If visitors listen to the melody of a piano from the empty ballroom, ita s the ghost of Flora Stanley, Stanley, Transpalated in 1939. In the middle of the Karakum desert, he sits a hole in flames called "door to hell". The well was not always on fire. The area was a regular field until 1971, when Soviet engineers began to pierce the site for oil. Shortly afterwards, they successfully came across a natural gas pocket, and the field collapsed in an underground cave. Photo courtesy: Tormod Sandtorv / Flickr The engineers thought it was better to set the well into flames to burn the dangerous methane gas. Assume that the gas would be burned within a few weeks, but the crater burned for more than 40 years. If you are for diving in the Mediterranean Sea, near Grenada or waters around Key Largo, Florida, you may be surprised by a statue of 8 feet of Jesus. Christ of the Abyss is a collection of submarine statue of Jesus created by the sculptor Guido Galletti. He spread the sculptures around several ocean floors. Photo of courtesy: Microgen / iStock / Getty Images Plus The giant divinity with your hands and its head raised in the depth of the ocean emits a spectral vibration that is also more frightening with increasing algae and corrosion. The Christ of the abyss in Italy began to disintegrate so bad that they had to remove and clean the statue several times. If you want a disturbing dive, the abyss of the abyss is just what you need. The most devastating nuclear explosions of history took place in Pripyat. The 1986 Chernobyl disaster caused almost 200,000 victims, and the exclusion zone of Chernobyl is still radioactive today. However, that they do not stop photographers and tourists wanting to see it. Foto Courtesy: Anton Petrus / Moment / Getty Images All remains in the same place since the residents have fled during evacuation. The classrooms still hold crumbling books and decomposition dolls, and abandoned gas masks are scattered throughout the city. The Pripyat amusement park is a famous point that reminds people of the catastrophic nuclear accident. The Gomantong caves of Malaysia are a complex caves system with limestone walls that are located up to 300 feet in some sections. The caves are the famous tourist attractions, although visitors are insigned (and embedded) from the wildlife that lives there. Photo of courtesy: Adrian-Morris / iStock / Getty Images Plus Grotte Gomantong are home to massive populations of bats and cockroaches. In fact, more than a million bats live in the cave. Can you even imagine how much bat poop accumulates? Guests slip on the bat's waste while sailing through the millions of cockroaches that crawl everywhere. Yikes! Centralia, Pennsylvania, was the inspiration for Silent Hill, the horrifying video game and film. Once a city engaged with successful coal mines, Centralia slowly started to group and die after the mines mysteriously took fire in 1962, and the city could not put fire. Photo of courtesy: Don Emmert / AFP / Getty Images The place started to worry more and more for the underground hell when a service station owner reported high gasoline temperatures in his tank. They also grown worried when a child fell into a 150-foot Lankhole that released a poisonous level of carbon monoxide. Now, Centralia is a ghost town, and experts estimate that fire could continue to burn over 250 years. Located 200 miles from Delhi, the strong abandoned Bhangarh is located in the middle of a desert. The empty fortress looks like a normal ancient ruin, drawing many visitors to the site while the sun is out. However, at night, it is a whole different story. Photo Cortesy: Public Domain Pictures The spectrality of the place is alive at night. It is allowed to visit the strong Bhangarh after sunset, mainly because according to what reported, one of the most blunt places on the planet. According to the local legend, a sorcerer cursed the fortress after a princess rejected him. The elegant Queen Mary was a popular passenger ship, sailing on the North Atlantic Ocean between 1936 and 1967. However, after years of service, Queen Mary was forced to retire in 1967 due to about And a decrease in profits. The ship permanently anchored in Long Beach, California, and eventually transformed into a hotel and tourist attraction. Photo Courtesy: Wikimedia Commons The staff and visitors claim the ghosts started during his stay in Long Beach. Mysterious strokes at the door when there was no one around it became common, and bathroom lights started to turn on and off by themselves. The locals claim that he is infested by the ghosts of people passing away on board. Built in 1796, Mirti Plantation is one of AmericaÂ € s more infested homes. First, the plantation is presumably built above a cemetery of Native Americans in St. Francisville, Louisiana. Secondly, other common tales label Myrtles Plantation such as the place of abuse, revenge and tragic deaths. Photo Courtesy: Bogdan Oporowski / Wikimedia Commons The locals report having seen many appearances in a historic home and for the reasons. More than 12 different ghosts presumably call Myrtles Plantation home. One of the most famous distillates is a former slave named Chloe, who spent his last moments at home. The ghost of a young native American woman has also been reported. The Winchester Mystery House can have a creepy design on the ground. It includes stairs that carry anywhere, windows overlooking other rooms and doors that open on 10 feet drops or brick walls. Bizarre, no? It is interesting to note that the Wasna house ts always this strange. Photo Courtesy: Harshlight / Flickr It was a typical palace until Sarah WinchesterÂ € s husband and her son both dead. Her husband was the treasurer of the Winchester Repeating Arms Company. He believed the ghosts that infest the property was the victims of his husbandÂ € s guns. In response, Winchester has created a vertiginous labyrinth within the house to confuse ghosts. Now, the giant mystery house is a famous tourist attraction. As one of the largest castles in Europe and one of the seven wonders of Romania, Corvin Castle is a castle of fairy tales. Many tourists can visit. The legend supports the historic Castle of Transylvania is also the place where the cruel and bloody ruler, Vlad the Impaler, was imprisoned. Photos Courtesy: Public Domain as many know, Vlad was also known as Dracula and inspired the famous vampire legend. Many legends are equipped with Corvin Castle, including a history of two prisoners to get stuck in a well, becoming eternally trapped on the property, even in the afterlife. As a result of these legends, countless paranormal sightings occurred at Corvin Castle. Saggada, Philippines, is home to one of the most unique burial rituals in the world. Instead of putting coffins in the ground, the people of the Saggada place hang hundreds of caves in caves and along the rocky walls of the cliffs. It was a common practice for more than 2,000 years. Photo Courtesy: David Carmona / 500px / Getty Images The layout of the coffins has to do with the state and the conviction that the spirits would reach a higher nature in ultra-terrain life. Sagada's cabinets are difficult to reach, and many visitors say that others should respect the burial tradition and view the site from afar. In the 19th century, archaeologists hope to find hidden treasures, such as beautiful monuments and frescoes in Romea S Catacombe of Santa Priscilla. Unfortunately, they discovered the catacombs have been destroyed, and the legend claims the tombs have been devastated, because the ghosts obsessed cursed cemetery. According to archaeologists, some of their crews met angry spirits, who pushed their transport to a nearby river. Photo Courtesy: DeAgostini / Getty Images Catacombs of Santa Priscilla Aroused controversy when the experts made the frescoes showed what could have been female priests that bring a mass, an event that would have scandalized and Catholic history alter. As a result, ITA s believed that the Catholic Church vandalized the catacombs to cover the shocking event in the 17th century. Nagoro, Japan, has an aging and falling population, causing the village to decrease over time. weather. Resident and artist Ayano Tsukimi took things in his hands returning to Nagoro and reporting the city in life in the most unexpected way. Photo Courtesy: Kazuhiro Nogi / AFP / Getty Images Tsukimi created 350-waist sized dolls and put all of their city around, including schools, gyms, benches and shops outside. Some visitors find disturbing and creepy dolls, but toys are there to stay and are the new unofficial village citizens. Only 30 real humans live in Nagoro. A drop of 2,000 feet could certainly take a fear of heights to a new extreme. This is exactly what happens when visitors fall along the cliffs of North Yungas Road to La Paz, Bolivia. Nicknamed "Death Road", this destination claims 200 to 300 lives per year. Courtesy photo: David Min / Moment / Getty Images Driving on North Yungas Road is particularly dangerous because the narrow path is only 10 feet wide, which makes it difficult for two machines that go in the direction of sharing the road. The lack of guardrails and limited visibility in rain and fog also add the dangerous reputation of the road. Currently, it has become a hotspot for wild motorcyclists at the mountain instead of the drivers. Outside the shore of San Francisco, California, the former military and federal prison called Alcatraz sits. From 1934 to 1963, the known plant was the house of many infamous prisoners, between Gangster al Capone, Bumpy Johnson and George "Machine Gun" Kelly. Photo of courtesy: D Ramey Logan / Wikimedia Commons former prisoners, guards and visitors reported paranormal activities in Alcatraz. The great mysterious shadows appear from nothing. The figures of the past detainees wander cells and rooms. Tinkling metal sounds, screams and shouts are listened to when no one else is around. If the infested prisons are your thing, then Alcatraz is definitely a destination not to be missed. Located in Long Island, in New York, Amityville's house is where Ronald Defeo, Jr., took the life of his family in 1974. About a year after the tragic accident, Lutz's family moved to the house And he enjoyed a great start Â, â, ~ "For a few days. Photo courtesy: Public Domain / Wikimedia Commons Things quickly took a dramatic turning point for the worst. The Lutz family reported noise noises, unexplained footprints, odors Fouls, green goo that exudes from the walls and eyes that look from the outside of the windows. It was so bad that the family left the house after only 28 days of life there. Many people do not believe in their history, but when they have Taken testing of lies, everyone has passed. Gettysburg Battlefield is known as the most frequented place in the world. During the civil war, the Battle of Gettysburg has been ahead for three days and became the battle more bloody in the history of US More Of 50,000 Americans lost their lives, and thousands of other soldiers were injured or disappeared. Photo Courtesy: Tetra Images / Getty Images Many lives has been concluded with violence on the Battlefield of Gettysburg, in an ita s no surprise that it is now a paranormal hotspot. Angry dark spirits wander the fields and nearby houses. Some clubs say that restless spirits are looking for their weapons and companions. Do these ghosts know that the battle is over? During the Second World War, Japan invaded Semarang, Indonesia, and took on a building owned by the first railway company in Dutch Indies, callinglga Lawang Sewu. In Japanese, Lawang Sewu means "a thousand doors". They transformed the building into a prison, and the basement has been used for executions. Photo of courtesy: Arief Broto Susilo / Flickr As a result, many ghost stories involve gambiapi Sewu. Tourists reported to see ghosts and ghou. More It's a Dutch woman who died in the building. Another signaled entity in Lawang Sewu is Kuntlianak, a vampiric ghost in Indonesian and Malay mythology. The earliest are infested with snakes and gasors swimming in turbid waters, but a swamp in Louisiana has a unique appearance that makes it disturbing. Located near New Orleans, Manchac Swamp is the spectral swamp thanks to a curse and a a Beast lurking. Photo of courtesy: Sam Hardin / iStock / Getty Images Plus Legend says that a priestess Voodoo has cursed the swamp and neighbors. Then, he died and took the whole village with her in the deadly 1915 New Orleans Hurricane. Now, her spooky her voice she pursued her swamp. Another Entity in Manchac Swamp is the Rouugarou, a bloody, teawolf-similar creature. Are you still afraid of the swamp? still?
