I graduated many years ago from medical school at the University of Florida, although I am a nole at heart from my undergraduate degree. I have a beautiful family of 9 children, and my faith is an integral part of who I am. If some days are unavailable for appointments with me, it most likely means I'm attending a conference out of state. The passion I have for continuing my education is present and an essential element in being the doctor my patients need me to be. St. Therese of Lisieux is a special saint to me, as one of my favorites quotes is this, "Remember that nothing is small in the eyes of God. Do all that you do with love." I hope that you enjoy your experience at JMJ Family Practice or the Moscati Center and wish a beautiful, full and truthful life. God Bless you!!Hi! I'm Linette De Leon and I'm beyond blessed to be part of this beautiful family here at JMJ. As a mother, my boys are mi mundo! I graduated from South University but my learning has not stopped since I received my diploma. I'm entirely committed to fitness and enriching our patients' experiences, so look out for new services that JMJ will be providing! I never knew that the same doctor I worked with at Osceola Regional Medical Center would be the same caregiver I'm learning from and working with here at JMJ. Dr. Fernandez has been a mentor to me in many ways and I'm excited to be contributing to the medical office that holds a special place in my heart.Hello! My name is Carina Diaz and I am extremely excited to join this awesome family at JMJ! I consider myself truly blessed to join this team as I have been a patient here for approximately 10 years and admire the faith and dedication that is provided by this medical team. I became a nurse in 2011 and have since cared for critically ill patients in the hospital setting. Through the years, I knew I wanted to expand my knowledge and continue my growth, so I decided to enroll back in school. I graduated from South University and received my master's degree as Family Nurse Practitioner. During my clinical rotation here, I was blessed to learn from Dr. Fernandez and the nurse practitioners in caring for the patients' body, mind, and spirit. I am passionate about teaching our patients how to use preventive medicine and finding more natural treatment options.Hi everyone! My name is Natalia Charaudeau. I feel so happy to have been given the opportunity to join the JMJ family. I am a board-certified family nurse practitioner serving patients and their families at the Kissimmee office. I completed my nursing degree at The University of South Florida. My nursing career started in 2007 in an adult/pediatric emergency department. I fell in love with pediatric emergency care and that's where my focus was the past 5 years. I decided to further my career and completed my Master of Science in Nursing with a focus on family practice from South University. My knowledge of functional medicine started as a patient at JMJ family practice and continued to grow during my clinical rotations as a student. It is truly a blessing to be able to understand how to heal from the inside out. I'm so thankful to have the JMJ family welcome me with open arms. I truly couldn't have found a better place to grow as a nurse practitioner and I look forward to learning from my colleagues and patients.
