290+ | Icecap Icecap only appears in Winterspring. It sells very well though. Also, don't forget to train your profession before you hit 75. Netherbloom can only spawn in Netherstorm and seems to like wide open areas. 161-205 | Fadeleaf, Khadgar's Whisker & Goldthorn Swamp of Sorrows is amazing for Herbalism. 270 - 300 Herbs in Felwood: Sungrass, Gromsblood, Golden Sansam, Dreamfoil, Mountain Silversage, Plaguebloom I hope you liked this Classic WoW Herbalism leveling guide, congratulations on reaching 300! (Return to Top) With the help of this herbalism leveling guide, you will soon be an artisan or even master herbalist, it just needs a little patience. 325-350 | Ragveil, Terocone & Flame Cap Ragveil is found in Zangarmarsh and the Coilfang Dungeons. 170 - 205 Herbs in these zones: Kingsblood, Liferoot, Fadeleaf, Goldthorn, Khadgar's Whisker Khadgar's Whisker requires herbalism 185, so you can't pick them right away. It can be gathered from 340 upwards, though I would recommend going with Netherbloom instead. You can do your rounds in Arathi Highlands. I recommend trying Zygor's 1-60 Leveling Guide if you are still leveling your character or just starting a new alt. You could even stay longer than 205, though after 205, there are other places that are much quicker. Click on the links to see the trainer's exact location. Tanaris also has a bunch of Firebloom, but it can be quite slow because the zone is so spread out. How to get Fel Lotus in TBC Classic Other than Black Lotus in Classic, Fel Lotus does not have its own spawn points. Once you reach 335 Skill, you can also gather Flame Caps in Zangarmarsh. 116-125 | Wild Steelbloom Wild Steelblooms like mountains and hills. 51-70 | Mageroyal + Earthroot You can stay in the starting zones and keep picking Earthroot or you can go to Westfall/Barrens depending on your faction and do circuits picking Mageroyal and Earthroot. 115 - 170 Don't forget to visit your trainer when you reach 150! Herbs in these zones: Bruiseweed, Wild Steelbloom, Stranglekelp, Kingsblood, Liferoot Kingsblood requires herbalism 125, and Liferoot requires herbalism 150, so you can't pick them right away. This zone is so big that you can use more than one route here. 350+ | Ancient Lichen & Netherbloom Ancient Lichen can only be found inside the Dungeons of Outland. You can also walk up to a guard in any city and ask where the Herbalism trainer is. There is a lot of Goldthorn & Fadeleaf here. Goldthorn generally likes to grow near hills & mountains and requires Herbalism skill 170. It will help you to reach level 60 a lot faster. Terocone generally sells quite well, as it is only found there and in very small, wooded areas of Shadowmoon Valley. 101-115 | Bruiseweed This one is simple: Stonetalon Mountains for the Horde, and Ashenvale for the Alliance. 270+ | Dreamfoil & Mountain Silversage Blasted Lands, Silithus and Un'Goro Crater have the most Dreamfoil. 126-160 | Kingsblood Ashenvale, Wetlands, Hillsbrad Foothills and Stranglethorn Vale. These two herbs can be found in abundance in and around the starting zones for each race. From This point onwards, you can also get quite far by just gathering everything you can in the Swamps of Sorrow, but I recommend you wait unit you have reached 150 and learned the next level of the profession before you go there. From experience, this usually evens out to about 1 Fel Lotus per hour, depending on your competition. Classic Herbalism Leveling Every starter zone is filled with herbs. Make sure to check out my Classic WoW Alchemy leveling guide if you want to level Alchemy. Herbs in these zones: Purple Lotus, Firebloom 230 - 270 Herbs in Hinterlands:Sungrass, Purple Lotus, Ghost Mushroom, Golden Sansam I marked a cave with red X, there are a bunch of Ghost Mushrooms in the cave, but you can only pick them with herbalism skill 245. There is also a small area in Ashenvale, Demon Fall Canyon. They like to grow near hills. Alternatively, you can farm Terocone from 325 upwards in the Terokkar Forest. report this ad For instance, Khadgar's Whisker in the Hinterlands. Herbs in these zones: Peacebloom, Silverleaf, Earthroot 1 - 70 70 - 115 Learn Herbalism Journeyman from your trainer. For the Alliance, eastern Loch Modan, Redrige and southern Darkshore are good areas. Felweed is used for a wide variety of Potions in TBC and will almost always sell. Also, there is also Bruiseweed in some locations in Loch Modan, Redridge and southern Barrens, but less of it. Here is a detailed guide for farming Icecap. It doesn't really matter which one you choose. The chance for this varies from 1.5% for Felweed to 3% for the high-end herbs like Mana Thistle. This Classic WoW Herbalism Leveling Guide will show you the fastest way to level your Herbalism profession from 1 to 300. 251-270 | Gromsblood & Golden Sansam Felwood and Blasted Lands are good. Be sure to train the next level of the profession as soon as you can, so you don't miss out. Herbalism goes well with Alchemy because you can use the herbs you pick and craft potions or elixirs. Stranglethorn Vale works too, bit it might be more dangerous. In Addition, there are two Neutral Herbalism trainers in Shattrath City, one for the Aldor and one for the Sryers. The Hinterlands and Azshara have some, too. 205 - 230 Visit your trainer and learn Herbalism Artisan. This does not include the Caverns of Time. You should only go to the red zone/lines after you passed 150. Mountain Silversage can also help you on your way after you reach skill 280. Table of contents: Herbalism Trainers 1-70 70-115 115-170 170-205 205-230 230-270 270-300 Classic WoW Herbalism Trainers You can learn Classic Herbalism from any of these NPCs below. It can also be harvested from Bog Giants in the Zone and can sometimes yield Unidentified Plant Parts, which are required for Cenarion Expedition Reputation. Once you reach 260, you can also start farming Golden Sansam. It generally grows in open areas and can be found in all Outland zones. Fel Lotus is randomly contained in any Outland herb. 231-250 | Sungrass Felwood and Feralas are the main zones for Sungrass. The Trainers for Herbalism in TBC are in Honor Hold and Thrallmar respectively. Artisan trainers for herbalism can be found in any major city. 206-230 | Firebloom Searing Gorge and Blasted Lands are great. Herbs in these zones: Mageroyal, Briarthorn, Stranglekelp Stranglekelp requires herbalism 85, so you can't pick them right away. In addition to these two, you can also start gathering Earthroot once you hit skill level 15. Then the trainer will be marked with a red flag on your map. Here is a more detailed guide for Dreamfoil farming routes. 71-100 | Briarthorn This part is particularly easy for Horde players, as they can just stay in the Barrens and start gathering Briarthorn as soon as they can. 285+ | Pleaguebloom Can be found in the Eastern and Western Plaguelands, and Felwood. Classic Herbalism Leveling Guide 1 - 300 1-50 | Silverleaf + Peacebloom. Mana Thistle can be found in any max level Outland zone, but can only be gathered at max skill. It's small but it can be worth it, as it is not very well known. But keep in mind, this Herbalism guide is made to level your profession as fast as possible, so sometimes the herbs you will farm might not be the best for Alchemy. TBC Herbalism Leveling Guide TBC Herbalism Leveling Guide 300 - 375 300-325 | Felweed Felweed is the most common of the Outland herbs. 365+ | Nightmare Vine & Mana Thistle While you can get to 375 by only gathering Netherbloom quite easily, Nightmare Vine will sell a bit better, and you need to switch zones while leveling anyway.
