That's because the all new XTi 2 Series amps continue to set the standard for unmatched performance and value, delivering the goods night after night without breaking a sweat. With such innovations as a universal tracking switch mode power supply and a fully integrated suite of speaker processing tools, these amps are at the top of their class when it comes to thermal efficiency and system flexibility. You also have greatly improved control capabilities. The addition of Peakx Plus™ Limiters gives you full command over threshold, attack and release, and we enhanced the Subharmonic Synth so you can easily manage frequency, gain and filter type, allowing for application specific tuning. Plus, you'll now be able to tailor fan speed for specific applications and have software visibility of the Power Supply Temperature and AC Line Voltage. Combine all of that with integrated cast aluminum rack handles for maximum durability and portability and you have the power to move you and the world. Amazon.com Crown's XTi family of amplifiers defines the standard for portable PA systems with unmatched performance, technology and power-to-the-people affordability that delivers the goods night after night without even breaking a sweat. When you choose Crown's XTi Series, you're choosing one of the most powerful and efficient amplifiers on the market today, with innovations like integrated DSP that allows you to quickly and easily configure crossovers, EQ, limiting and delay, along with tools like a pink noise generator, subharmonic synthesizer, and universal tracking switch-mode power supply, which reduces power draw and waste heat. And as the first Crown amps to use Icepak thermal modeling software, they are at the top of their class when it comes to thermal efficiency and lightweight portability. Performance, technology, and affordability. Click to enlarge. Integrated speaker presets with an LCD front panel display. Click to view rear panel.Neutrik Speakon and binding post outputs. Speaker Presets The XTi series features integrated speaker presets with an LCD front panel display. When you power off and back on, your settings will be as they were when you shut off the amplifier—set up crossover frequencies, EQ, limiting, and delay. Crystal-Clear Sound Get accurate, uncolored sound with very low distortion, for the best in music and voice reproduction. Protection Advanced protection circuitry guards against shorted outputs, open circuits, DC, mismatched loads, general overheating, high-frequency overloads and internal faults. Versatile Output The XTi 2000 will handle a wide range of speaker impedances (2 to 8 ohms stereo, 4 to 16 ohms bridge mono), and both Neutrik Speakon and binding post outputs (in parallel). Universal Power Use the XTi on different power grids thanks to the switch-mode universal power supply (100V, 120V, 220-240V 50/60 Hz). Road-Ready All XTi amps fill 2U rack spaces and weigh under 19 lbs., for a new standard in lightweight amps. Three-Year Warranty The XTi 2000 is backed up by Crown's three-year, no-fault, fully transferable warranty. Protect your investment and guarantee its specifications.
