strategyAn "All About Me" project offers several benefits for students:Self-Awareness: Helps students think about who they are, what they like, and their experiences.Communication Skills: Improves how students share personal information clearly and simply.Confidence Building: Lets students feel proud of their unique qualities and achievements.Social Bonding: Helps classmates learn about each other, building friendships and understanding.Creativity: Gives students a chance to express themselves in fun and creative ways.Presentation Skills: If shared with the class, it helps improve public speaking.Goal Setting: Encourages students to think about their future dreams and plans.Cultural Appreciation: Prompts students to explore and share their cultural backgrounds.Memory Keeping: Creates a snapshot of who they are now for future memories.Writing Practice: Helps improve writing skills if the project involves writing.Organization: Teaches how to arrange and present information in a clear way.Digital Literacy: If done on a computer, it helps improve tech skills and digital presentation abilities.Educational Websites:ScholasticTeachers Pay TeachersEducation.comSocial Media I enjoy coming up with smart, helpful project ideas that inspire students and support teachers. I'm skilled at doing research, finding what works best, and turning ideas into successful learning experiences. I also love working with others, staying organized, and making sure every project is done well and on time. Let's team up to turn great ideas into real results! Curriculum Resources Company Shop Support Platform Login Curriculum Resources Company As our students come back to school each year, some of the most tried and true classroom get-to-know-you icebreakers are All About Me activities. We've all done them, and we will all do them again in the future! After all, All About Me activities are a great way for students to get down to work and shake those first days of school jitters. They get the kids involved from the start, doing things they are comfortable with and encouraging positive attitudes as they describe themselves, their favorite things, their unique attributes, etc. But, admit it, many of us are using the same old All About Me worksheets that we've been using for years. And now, those 6th generation copies (since we lost the originals several times over) are getting quite fuzzy, if you know what I mean. But no worries, I am here to help! I have several fresh, contemporary All About Me activities that your kids will love. These All About Me activities will also make you the envy of the teachers on your team or your hall! My All About Me activities fully engage the students. Not only do they get into describing themselves, but they also love the artistic expression, reflection, creativity, and community building that is inherent in these All About Me activities. When they are done, the final results can be proudly displayed on a bulletin board, blank wall, or even in the hallway. Best of all, my All About Me activities have been tested and enthusiastically approved—by students and teachers alike! Ok, ok, enough of a lead-in. Let's get on with the projects. Middle school years are hard in general, so finding ways to get to know your students is very important! With students this age, it is best to try and think outside the box. Engage them with fun activities in the first few weeks of school to help with relationship building. There are many ways to pull in the curriculum with these activities like creative writing activities and school math ideas. Enjoy this list of 23 inspiring ideas with your middle schoolers! This is a great alternative to the same old, what is your favorite color or favorite food writing activity? This is where students pick the best part of themselves, write about why, and include a photograph. This is a great way to get to know students and encourage them to discover how they see themselves. Learn More: Lessons with Laughter This is a creative spin on a traditional writing activity for upper elementary or middle school students. Students will draw a selfie, or even print a photo, and write about themselves. This is a great option for the first weeks of school or even as a reflection activity throughout the year. Learn More: The Apollicious Teacher Icebreakers are a great option for the start of the school year. This cool icebreaker is a good one to use as it will get students up and moving and mingling with everyone! They have to seek out students who fit the category of what they are looking for and speak with many different students in the process. Learn More: Sadlier Trade in the writing prompts for something a little more creative, like this All About Me bag activity. These can also serve as good classroom icebreakers and provide a way for students to connect with each other and bond over similar preferences. Learn More: Inclusion Rules Creating digital collages lets students relax and open up about what they like and enjoy doing. The digital version of the collage is a great way to allow students more experience in the digital world whilst using digital resources. Learn More: Amsler Artroom Partner chats are an underrated resource in the classroom. Instead of a traditional writing prompt, use these in-person chats to allow students to interact with each other. They can talk about themselves and have their partner introduce them to the rest of the class. Learn More: Bridge Universe This writing activity will build classroom community by strengthening your bond with your students. This is an awesome idea to use with students who are shy. They can write things they wish their teacher knew. This is a humble and interesting activity. Learn More: For the Love of Teachers Having students think about themselves is always an interesting task. Asking them to write words to describe themselves may be challenging for them. Help students use a thesaurus and get creative with words that help paint a picture of themselves. Learn More: For the Love of Teachers Turn get-to-know-you activities into a fun game. Have groups play against each other and write clues about themselves and have the teacher guess the correct group to unlock the box. This will be fun to watch students keep a secret until the truth is unlocked! Learn More: Teach Without Tears This can be tweaked to be a better fit for middle school, but the base of the activity will remain the same. Create a simple list to let students share things about themselves. Simply let them list their favorite things and share them with others. Learn More: Teach Without Tears Finding a friend is a great activity for students of all ages. Use the editable version to tailor the options to fit your middle schoolers. This will get your middle school class up and moving. Students can spend the first few days of school getting to know their peers by finding students that fit within the categories they need. Learn More: Prodigy Game Give your students a class or school survey at the start of the year. You could also give a learning styles survey that students complete to help you understand more about how they like to learn. This is good for any middle school class or content area. Learn More: Prodigy Game Middle schoolers may scoff at a typical glyph, but this activity takes it one step further into the artistic realm. Students can get creative by designing a pennant that reflects them and their preferences and personalities. Upper elementary students may enjoy this as well. Learn More: Good Housekeeping Use colored Jenga blocks to play this get-to-know-you game so students can tell you all about themselves. They answer questions based on the color block they remove. Learn More: Good Housekeeping Now, this is an all-about-me activity that serves many purposes for the teacher! Teachers can see how students feel about learning and what they prefer and don't care for. They can read detailed statements and sort them based on how they feel about each one- in turn creating a very informative learning styles inventory. Learn More: Mrs. E Teaches Math For a completely different twist on all-about-me activities, let middle school math students do a math-about-me project! Challenge them to think about their lives outside school to find different ways to use numbers to create this project. Learn More: Mrs. E Teaches Math Creating collages is a great way to let students be creative in expressing themselves. This art activity is great for getting into those middle school students' thoughts by seeing the things they like and enjoy. Students can include photos, pictures from magazines, and even their own artwork. Learn More: Carrots are Orange Be sure to pencil in some time in your lesson plan to allow students to decorate their writing notebooks at the start of the year. This is good for them to express themselves and decorate, using an all-about-me format, but it can also be used as inspiration when writing throughout the year. Learn More: On Lemon Lane Trade in traditional autobiographies for this writing assignment which contains a twist. This project may take a bit of time, but it will be well worth it! Have students interview each other to learn more about the other and then have them turn that into a biography of the other person. Learn More: On Lemon Lane Pencil in some extra time to let students use their favorite colors and get artistic with this project. Replace the traditional school survey with a fun art project like this one that allows students to express themselves through art! Learn More: Project School Wellness Whether in middle school or elementary school, this is a fun activity to replace the same old get-to-know-student information sheet from the beginning of the school year. This school printable will be a hit for sure and will make an adorable school bulletin board! Learn More: The Imagination Box Another fun art project is this graffiti-themed activity that's sure to be a crowd-pleaser- even for your middle schoolers! Doing this in the first days of school can help you get students excited for other fun activities whilst learning more about them in the process. Learn More: The Imagination Box This is not just any old students' information sheet. Middle school students love social media and this is a great PDF file to print and use with students to get to know more about them. Learn More: Presto Plans Last updated: August 6, 2024 by the Homemade Gifts Coloring Team Looking for a project for the first day of school? The first day of camp? Or even to celebrate a birthday? These free printable All About Me Worksheets are easy for your eager students to complete. Here, you'll find 30 different printable All About Me Worksheets for all different ages from preschool to adults! Each has a different layout and varying questions or fill-in-the-blanks for your students to write in their favorite things. Choose from black and white scrapbook-style worksheets to brightly colored comic-style worksheets. Print them out as posters to put around the classroom or as small worksheets for the students to take home as part of their portfolios at the end of the year. Kids grow so fast. I like to have my son and daughter fill out a printable All About Me worksheet on their birthdays to keep a memory of the things that they loved. Print one out for each student in your class to celebrate their big day and have a memento to send home to mom and dad. My son especially loves to laugh over his favorite food and activities when he was younger. These sheets are also perfect for middle school interview assignments or literature character profiles. Or, maybe you need something to help create a bond between college students? Use the adult versions of these All About Me Worksheets to break the ice! There is also a perfect version for adults to use as part of goal-setting meetings or get-to-know-you activities for a company-wide retreat! All About Me Worksheets for Preschool and Kindergarten Students Every preschool and kindergarten student shines when they get to celebrate all the things that they love. Use these preschool All About Me worksheets on the first day of school to meet your new class. Preschoolers and Kindergarteners will love filling in their favorite food, favorite song, and talking about what they like to do for fun, all while coloring these worksheets in their favorite style. Our All About Me Drawing Worksheet is perfect for artists or students who aren't able to write out letters yet. There's even a space for students to draw a self-portrait. You can also take a photo on the first day to print out and attach onto each worksheet. They are also the perfect worksheet to make your student's special day even more special! All About Me Worksheets for Elementary Students These All About Me Worksheets will start the year off right for your new classroom of elementary students. Our black-and-white blank All About Me worksheets have plenty of space for students to fill in the blanks and draw their favorite activities. Or print out the fun and bright colorful worksheets for a pop of color in the classroom! Have students fill one out at the beginning of the year and again at the end of the year to see how much has changed in just a few months! Students will love writing down their hobbies, what they want to be when they grow up, their favorite book, and even their favorite subject. All About Me Worksheets for Middle School Students Getting To Know You activities can be especially hard for middle school students who may feel shy or awkward about telling the whole class about themselves. These worksheets are the perfect tool to have in your teacher toolbox this fall! Have the middle schoolers interview each other, their teachers, or even their family members as a school or class project to create a shared experience. Each All About Me pdf allows students to customize their own experience in the classroom. Let students choose the template that they like the best. Maybe they prefer the minimalist black-and-white lined version, the rainbow landscape, or the simple, playful scrapbook style. They can even personalize it with their favorite colors and drawings. Looking for a new and interesting way to test reading comprehension? These All About Me Worksheets make a great base for creating profiles of your student's favorite characters! All About Me for High School Students, College Students, and Adults All About Me worksheets aren't just for kids. These versions are perfect for high school students, college students and adults too! Are you leading a workshop and need icebreakers to create a relaxed and welcoming atmosphere for students? Do you need to set goals for your team? This All About Me worksheet for adults features clean black-and-white professional styles with thought-provoking questions, such as "Describe yourself in three words", "Three things on my bucket list", and "Who inspires you the most and why?" Simply click on the image, download the PDF and print them today! Tips For How to Use All About Me Printable Worksheets: Integrate these free All About Me printable worksheets into your first week of teaching to get to know your new class. Hang the completed posters in the hallway or around the classroom. Have each student present their posters during a gallery walk so that everyone can learn about each other. Print out an All About Me pdf every year on your child's birthday to have a memento of what they loved for that year. Create profiles in the yearbook by using All About Me worksheets. Assign these worksheets as an icebreaker for the first meeting of a club at the start of the school year. Use the All About Me worksheets as a template to use for interview projects for students to interview their classmates, their teachers or their family members. Print out the All About Me worksheets for adults at the beginning of a workshop or as part of a goal setting session for a team or group of co-workers. Use the All About me worksheets as a note catcher for a character profile for a fun literature project! Students will choose a character from a book that they are reading and complete the worksheet about that character. It's a great opportunity to see what insights they have about their favorite characters! Free Printable Back to School Cards Find our free printable back to school cards in high quality PDF format that you can print and fold at home. These are perfect as a hidden motivational surprise for children to let them know that you're rooting for them, or for teachers to use to greet their new students at the beginning of the year. We even have some color-in printable cards, that you can use as a school activity. Get Ready for Back to School While you're here, don't forget to check out our other educational resources and back to school printables collection. Whether you're preparing for back to school or simply looking for some engaging activities for your kids, we've got plenty more printables for you to explore. Popular pages The beginning of a new school year is very exciting for both teachers and students. Each looks forward to getting to know one another. But with the number of students in each class, it can take a while for teachers to learn everyone's favorite things, their likes and dislikes, and their background. We try to make it easy for teachers to get that information by creating 50 "getting to know me" worksheets to have students complete. Each has a different layout and varying questions or fill-in-the-blanks so your students can fill you in on everything you need to know. It's always interesting to see what everyone has to say about themselves and is a great way to connect with each child. We've also made 20 About Me worksheets for older students and adults as a quick way to get to know an older audience or simply to use as an icebreaker! See the "All About Me Worksheets For Older Students & Adults" section towards the bottom of this post! While these are a wonderful resource for teachers, they are also perfect for interviews with your own children at the beginning of the year. Have your child fill out their workshet at the beginning of each school year and again at the end of the year to see how they've changed! And the best part of all is that they're 100% free to print from the comfort of your own home. All you need to do is select which one(s) you like from the options below, click to download the PDF file to your computer, and print! It really is as easy as that! And don't forget, after you're finished having your child fill in their sheet to have them pose for their "first day of school" picture holding one of these free printable First Day of School Signs - there are SO many options to choose from and even a few editable versions. You are sure to find one you love! P.S. If you're a teacher or a parent (or both!) to any preschool- or kindergarten-aged children, you'll want to check out our free printable Letter A Worksheets. We have 50 free worksheets and activities to get your child well on their way to learning the first letter of the alphabet! You might also like our free printable Student Information Sheets as a way to gather information about your students and their homes.
