With the whole of the book translating so much information in such a few pages. The man is a wonderful thinker and an amazing writer. He explains the theoretical (but to me purely practical) answer to the mystery of the most profound Prophets ever on earth, besides Crowley himself of course. The technique in which they attained genius (enlightenment) by meditation and what exactly consists of such a quest.... If you would like the practice of stilling the mind explained to your mind in the best of what could be easily argued of all the attempts in literary form then this is the book you want.. Part II is a fabulous treatise on the tools of the practice of the "true" "Magick of the Magi"... Ceremonial Magick is the means by which you attempt to contact, control, and understand the different facets (spirits) of your mind to assist you in the mystical enlightenment journey. Mind being roughly speaking thought, emotion, and the subconscious. It includes detailed information on the tools needed for Magickal practice and exactly what they are connected with practically and theoretically. To convey his many keen and intense ideas Crowley can and will use or compare Qabalah, Hindu philosophy, Buddhist philosophy, Christian theology, english literature, psychology, mythology, analogy, metaphor, science, wit, his sense of humor, even nursery rhymes in an interlude and who knows what else!!!! This book is of immense help to someone trying to learn about the occult science.
