Select the level to test by writing the alphabet quickly. Once you have selected a level, the timer starts when you press the first key. Enter the alphabet on the order you have chosen, it can be in normal alphabetical order from A to Z, towards Z-A, or in random order. The last level has several order of the letters every time you play, which makes it very difficult. Every time you write the right letter you will turn green on the screen, but when you press the wrong will turn red. You must always write the right letter to continue with the next one. How fast can you write the alphabet on time? The higher the level, the shorter the level will be. To write test the letters in the English alphabet abcdefghijklmnopqrstuvwxyz with timer, i.e. from ABC to XYZ on time. If you want it to be faster to write the alphabet, it is important to practice. Test which level of this speed test you can master. The game works ideally with QWERTY keyboards, but it also works well with other keyboard designs. Since the game is played online, it works with any device; Computer, tablet or smartphone. The calculation of the level of knowledge of the alphabet is completed the level of game gives 1 point of knowledge in the type of alphabet. The maximum number of points (40 knowledge points) is achieved when you pass the 40 levels. You will earn a bronze medal when you complete a level 2 times and a silver medal after 5 completed rounds. You will receive a gold medal after 10 completed rounds. In the

alphabet type, the maximum number of collectible gold medals is 40. You only get knowledge points for levels that have not been removed before. A clear level has a green background above. Even when you have completed a level, you can continue practicing at that level, but it does not give you more knowledge points.
